## Independent auditor's report

To the Shareholder and Supervisory Board of  
Public Joint Stock Company Commercial Bank "PrivatBank"

We were engaged to audit the separate financial statements of Public Joint Stock Company Commercial Bank "PrivatBank" (the Bank), which comprise the separate statement of financial position as at 31 December 2016, and the separate statement of profit or loss and other comprehensive income, the separate statement of changes in equity and the separate statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

### Disclaimer of opinion on the financial performance and cash flows

We do not express an opinion on the financial performance and cash flows. Because of the significance of the matters described in the *Basis for disclaimer of opinion on the financial performance and cash flows* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial performance and cash flows.

### Basis for disclaimer of opinion on the financial performance and cash flows

- In 2016, the Bank recognised an impairment charge of UAH 154,617 million in respect of loans and advances to customers. We were unable to obtain sufficient appropriate audit evidence about the period this impairment loss relates to. As a result, we were unable to determine whether any adjustments were necessary to the separate statement of profit or loss and other comprehensive income and the separate statement of changes in equity for 2016 and 2015.
- In 2016, the Bank carried out a restructuring of loans and advances to customers with carrying value before allowance for impairment of UAH 137,082 million as at 31 December 2016. We were unable to obtain sufficient appropriate audit evidence in respect of the effects of the restructuring of such loans on the separate financial statements. As a result, we were unable to determine whether any adjustments were necessary to impairment charge on loans and advances to customers, losses on initial recognition of financial assets with lower than market interest rates and interest income for 2016.
- We were unable to obtain sufficient appropriate audit evidence in respect of related party transactions for the period from 1 January 2016 to 19 December 2016, the date of the change in shareholders. As a result, we were unable to determine whether any adjustments were necessary to the disclosure of related party transactions presented in Note 29 to the separate financial statements.

## Departures from International Financial Reporting Standards in respect of the financial performance and cash flows

- In 2016, the Bank recognised loss on the redemption of financial liabilities of UAH 1,363 million related to the prior period within interest expense and foreign exchange translation losses. As a result, interest expense, foreign exchange translation losses less gains for 2016 and retained earnings as at 31 December 2015 were overstated by UAH 840 million, UAH 523 million and UAH 1,363 million, respectively.

## Qualified opinion on the financial position

In our opinion, except for the possible effects of the matters described in paragraphs (1), (3), (4) and (5) in the *Basis for qualified opinion on the financial position* section of our report, and except for the effect of the matter described in paragraph (2) of the *Basis for qualified opinion on the financial position* section of our report, the accompanying separate statement of financial position presents fairly, in all material respects, the financial position of the Bank as at 31 December 2016 in accordance with International Financial Reporting Standards (IFRSs).

## Basis for qualified opinion on the financial position

1. As at 31 December 2016, the Bank recognised repossessed properties of UAH 21,356 million within repossessed collateral, UAH 1,095 million within investment property and UAH 266 million within premises, leasehold improvements, equipment and intangibles. As described in Note 27 to the separate financial statements, in 2016 repossessed collateral with a value of UAH 7,103 million was settled against derivatives embedded in loans issued to customers. We were unable to obtain sufficient appropriate audit evidence in respect of the fair value of repossessed properties. As a result, we were unable to determine whether any adjustments were necessary to the amounts of repossessed collateral, investment property and premises, leasehold improvements, equipment and intangibles as at 31 December 2016 and losses less gains from embedded derivatives and other operating income for 2016.
2. The Bank did not perform an analysis of whether criteria for derecognition were met in respect of amounts due to customers of UAH 8,878 million that are subject to conversion into equity as described in Note 1 to the separate financial statements. Such amounts due to customers, and a corresponding receivable of UAH 8,878 million, as described in Note 12, were recognised in the separate statement of financial position of the Bank as at 31 December 2016. This receivable does not meet the definition of an asset in accordance with IFRS. As a result, the Bank's other assets were overstated by UAH 8,878 million as at 31 December 2016. The effect of not analysing the derecognition criteria for amounts due to customers on the Bank's liabilities and equity has not been determined.
3. As at 31 December 2016, the Bank recognised internally generated intangible assets (software development) of UAH 339 million within premises, leasehold improvements, equipment and intangibles. We were unable to obtain sufficient appropriate audit evidence as to the date when such intangible assets should be recognised initially and their initial cost. As a result, we were unable to determine whether any adjustments were necessary to the carrying value of premises, leasehold improvements, equipment and intangibles as at 31 December 2016.

4. As at 31 December 2016, the Bank did not recognise obligations of UAH 637 million under IAS 37 "Provisions, Contingent liabilities and Contingent assets". Accordingly, provisions for liabilities and charges, other financial and non-financial liabilities and administrative and other operating expenses were understated by UAH 637 million.
5. As at 31 December 2016, the Bank recognised an allowance for impairment of UAH 3,044 million on loans and advances to customers with the carrying value of UAH 17,730 million before allowance for impairment. We were unable to obtain sufficient appropriate audit evidence in respect of expected future cash flows from sale of collateral used to estimate the impairment allowance. As a result, we were unable to determine whether any adjustments were necessary to the amount of impairment allowance on such loans as at 31 December 2016.

We conducted our audit of the separate statement of financial position of the Bank as at 31 December 2016 in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in *the Auditor's responsibilities for the audit of the separate financial statements* section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the separate financial statements in Ukraine, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the financial position of the Bank as at 31 December 2016.

### Emphasis of matter

We draw attention to Note 2 to the separate financial statements, which describes the operating environment in Ukraine. The circumstances referred to in Note 2 could continue to adversely affect the Bank's financial position and performance in a manner not currently determinable. Our opinion is not further modified in respect of this matter.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the separate statement of financial position as at 31 December 2016. These matters were addressed in the context of our audit of the separate financial statements as a whole, and in forming our opinion on the financial position thereon, and we do not provide a separate opinion on these matters. In addition to the matters described in the *Basis for qualified opinion on the financial position* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the separate financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the separate financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide a basis for our qualified audit opinion on the accompanying separate statement of financial position.

### *Valuation of allowance for impairment of loans and advances to customers*

The appropriateness of allowance for impairment on loans and advances to customers is a key area of judgment for the Bank's management. The identification of impairment and the determination of the recoverable amount are an inherently uncertain process involving various assumptions and factors including the financial condition of the counterparty, expected future cash flows, observable market prices and fair value of collateral.

The use of different modelling techniques and assumptions could produce significantly different estimates of allowance for impairment on loans and advances to customers. Taking into account the significance of the loans and advances to customers balances (25% of total assets) and high level of subjectivity of assumptions, we considered valuation of allowance for impairment on loans and advances to customers as a key audit matter.

Our audit procedures included the assessment of the methodology used by the Bank to identify impairment indications and calculation of allowance for impairment, testing of input data and analysis of assumptions. For the allowance for impairment calculated on an individual basis, we tested the assumptions underlying the impairment identification and quantification including assessment of financial condition of the counterparty, forecasts of future cash flows and valuation of underlying collateral. For the allowance for impairment calculated on a collective basis, we tested the underlying models including the inputs to those models and their mathematical accuracy.

We assessed the Bank's information about the allowance for impairment on loans and advances to customers disclosed in Notes 9, 24 and 27 to the separate financial statements.

### *Valuation of government bonds*

Valuation of government bonds and related embedded derivative financial instruments was a key area of judgments for management due to complexity of estimations and subjective valuation techniques. Taking into account the significance of the carrying amount of government bonds and related embedded derivative financial instruments to the separate financial statements and related estimation uncertainty, we considered valuation of the above assets as a key audit matter.

Note 10 and 27 to the separate financial statements provide information on the government bonds and related embedded derivative financial instruments.

Our audit procedures in respect of the valuation of government bonds included inquiries of the Bank's management about the significant assumptions applied, assessment and testing of inputs used, assessing mathematical accuracy of the calculation and comparing the results in the models to the amounts recognised in the separate statement of financial position as at 31 December 2016. We involved our valuation specialists to evaluate the methodology and assumptions used. We assessed the Bank's disclosures in relation to the government bonds and related derivative financial instruments.

## **Other matter**

The separate financial statements of Public Joint Stock Company Commercial Bank "PrivatBank" as at 31 December 2015 and for the year then ended were audited by another auditor who issued an auditor's report dated 22 July 2016 with a qualified opinion in respect of the fact that at the date of those auditor's report management has not completed its assessment of the possible impact of repossession of collateral on the Bank's related parties list and the respective disclosure in the separate financial statements, and an emphasis of matter paragraph drawing attention to political and economic uncertainties in Ukraine.

## **Other information**

Other information consists of the Annual report of Public Joint Stock Company Commercial Bank "PrivatBank" other than the separate financial statements and our auditor's report thereon. Management is responsible for the other information. The Annual Report of Public Joint Stock Company Commercial Bank "PrivatBank" is expected to be provided to us after the date of this auditor's report.

Our opinion on the separate statement of financial position does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

## **Responsibilities of management and the Supervisory Board for the separate financial statements**

Management is responsible for the preparation and fair presentation of the separate financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Supervisory Board is responsible for overseeing the Bank's financial reporting process.

## **Auditor's responsibilities for the audit of the separate financial statements**

Our responsibility is to conduct an audit of the Bank's separate financial statements in accordance with International Standards on Auditing and to issue an auditor's report.

However, because of the matters described in the *Basis for disclaimer of opinion on the financial performance and cash flows* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial performance and cash flows.

Our objectives are to obtain reasonable assurance about whether the statement of financial position as at 31 December 2016 as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion on the financial position. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statement.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate statement of financial position, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate statement of financial position, including the disclosures, and whether the separate statement of financial position represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with it all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Supervisory Board, we determine those matters that were of most significance in the audit of the separate statement of financial position as at 31 December 2016 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The partner in charge of the audit resulting in this independent auditor's report is Yulia Studynska.

<b>Effect of exchange rate changes on cash and cash equivalents</b>		<b>1,203</b>	<b>2,415</b>
<b>Net (decrease)/increase in cash and cash equivalents</b>		<b>(343)</b>	<b>14,716</b>
Cash and cash equivalents at the beginning of the year		29,016	14,300
<b>Cash and cash equivalents at the end of the year</b>	7	<b>28,673</b>	<b>29,016</b>

Approved for issue and signed on 16 May 2017.

Olexandr V. Shlapak  
Chairman of the Board

Valentyna V. Yarmolenko  
Chief Accountant

Operating and financing transactions that did not require the use of cash and cash equivalents and were excluded from the statement of cash flows are disclosed in Note 7.

## 1 Introduction

Public Joint Stock Company Commercial Bank PrivatBank ("PJSC PrivatBank" or "the Bank") was initially registered as a commercial entity with limited liability, re-organised into a closed joint stock entity in 2000. In 2009 the Bank changed its legal form to a public joint stock company limited by shares in accordance with changes in Ukrainian legislation. As at 31 December 2015 according to the share registers the ultimate major shareholders of the Bank were Mr I.V. Kolomoyskiy and Mr G.B. Bogolyubov who owned directly and indirectly respectively 49.99% and 41.59% of the outstanding shares and neither of which individually controlled the Bank. As at 31 December 2015 the major shareholders of the Bank did not have a contractual agreement on joint control of the Bank.

*Nationalisation of the Bank.* On 18 December 2016, the Deposit Guarantee Fund of Ukraine ("the DGF") has appointed a temporary administrator to manage activities of the Bank following the decision of the NBU to declare it insolvent. At the same date the Government of Ukraine adopted a decision to become a sole shareholder of the Bank through the Ministry of Finance.

On 19-21 December 2016, in accordance with the provisions of the Law of Ukraine "On deposit guarantee system", the DGF dismissed the Management and the Supervisory Boards of the Bank and was solely responsible for managing the Bank's activities during these three days. The DGF recognised UAH 155,764 million of allowance for impairment of loans and advances to customers and converted UAH 10,934 million of amounts due to customers, UAH 10,721 million of Eurobonds issued and UAH 7,783 million of subordinated debt into the Bank's share capital ('bail in'). On 21 December 2016, subsequent to bail in, the Bank's shares were sold to the Ministry of Finance of Ukraine for UAH 1. In December 2016, the Ministry of Finance took a decision to increase the Bank's share capital by UAH 116,800 million. Refer Note 18.

As at 31 December 2016, and thereafter, the Ministry of Finance of Ukraine continues to be the sole shareholder of the Bank and the Bank is ultimately controlled by the Government of Ukraine.

*Principal activity.* The Bank's principal business activity is commercial and retail banking operations within Ukraine. The Bank has operated under a full banking licence issued by the National Bank of Ukraine (the "NBU") since March 1992. The Bank participates in the State deposit insurance plan (registration #113 dated 2 September 1999), which operates according to the Law №2740-III "On Individuals Deposits Guarantee Fund" dated 20 September 2001 (as amended). As at 31 December 2016 and 2015 the Deposit Guarantee Fund of Ukraine guarantees repayment of individual deposits up to UAH 200 thousand per individual in case bank liquidation procedure is started.

As at 31 December 2016, the Bank had 30 branches and 2,445 outlets in Ukraine and a branch in Cyprus (31 December 2015: 30 branches, 2,589 outlets in Ukraine and a branch in Cyprus). Additionally, as at 31 December 2016 the Bank had an associate in Latvia (31 December 2015: a subsidiary in Latvia) and representative office in Kyiv (Ukraine) and London (the United Kingdom), several structured entities in the United Kingdom.

*Registered address and place of business.* The Bank's registered address as at the date of these separate financial statements is:

50, Naberezhna Peremohy Str.,  
49094, Dnipro,  
Ukraine.

*Presentation currency.* These financial statements are presented in millions of hryvnias ("UAH million"), unless otherwise stated.

## 2 Operating Environment of the Bank

The Bank conducts most of its operations in Ukraine. The Ukrainian economy while deemed to be of market status continues to display certain characteristics consistent with that of an economy in transition. These characteristics include, but are not limited to, low levels of liquidity in the capital markets, high inflation, and significant imbalances in the public finance and foreign trade.

Following the significant deterioration in 2014 and 2015, the current political and economic situation in Ukraine remains unstable. The Ukrainian government continues to pursue a comprehensive structural reform agenda aiming at the removal of the existing imbalances in the economy, public finance and governance, fighting corruption, reforming judiciary system, etc. with the ultimate goal to secure conditions for the economic recovery in the country.

## 2 Operating Environment of the Bank (continued)

The weakness of the national currency, which experienced more than triple devaluation against US dollar since the beginning of 2014, combined with cross border settlement restrictions, negative external trade balance, along with continued volatility in the country's traditional export commodity markets, and high inflation represent key risks to the stabilisation of the Ukrainian operating environment in the near future. The continued support from the IMF and other international donors is contingent upon the mentioned above structural reforms sustaining momentum.

The known and estimable effects of the above factors on the financial position and performance of the Bank in the reporting period have been taken into account in preparing these separate financial statements.

Since 2014 the Bank was not able to carry out its operating activities in the Crimea and certain areas of the Donetsk and Lugansk regions and was forced to relocate its activities from these regions. Specific effects of the secession of Crimea and the ongoing conflict in the Donetsk and Lugansk regions of Ukraine are disclosed further in Notes 4, 9 and 26 of these separate financial statements.

Management is monitoring the developments in the current environment and taking actions, where appropriate, to minimize any negative effect to the extent possible. Further adverse developments in the political, macroeconomic and/or international trade conditions may further adversely affect the Bank's financial position and performance in a manner not currently determinable.

## 3 Summary of Significant Accounting Policies

*Basis of preparation.* These separate financial statements have been prepared in accordance with International Financial Reporting Standards for the year ended 31 December 2016. Users of these separate financial statements shall read them together with consolidated financial statements of the Bank and its subsidiaries for the year ended 31 December 2016 with the purpose to obtain a correct understanding of financial standing, financial performance results and cash flows of the Bank and its subsidiaries.

*Financial instruments – key measurement terms.* Depending on their classification financial instruments are carried at fair value or amortised cost as described below.

*Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The best evidence of fair value is price in an active market. An active market is one in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Fair value of financial instruments traded in an active market is measured as the product of the quoted price for the individual asset or liability and the quantity held by the entity. This is the case even if a market's normal daily trading volume is not sufficient to absorb the quantity held and placing orders to sell the position in a single transaction might affect the quoted price.

A portfolio of financial derivatives or other financial assets and liabilities that are not traded in an active market is measured at the fair value of a group of financial assets and financial liabilities on the basis of the price that would be received to sell a net long position (i.e. an asset) for a particular risk exposure or paid to transfer a net short position (i.e. a liability) for a particular risk exposure in an orderly transaction between market participants at the measurement date. This is applicable for assets carried at fair value on a recurring basis if the Bank: (a) manages the group of financial assets and financial liabilities on the basis of the entity's net exposure to a particular market risk (or risks) or to the credit risk of a particular counterparty in accordance with the entity's documented risk management or investment strategy; (b) it provides information on that basis about the group of assets and liabilities to the entity's key management personnel; and (c) the market risks, including duration of the entity's exposure to a particular market risk (or risks) arising from the financial assets and financial liabilities is substantially the same.

Valuation techniques such as discounted cash flow models or models based on recent arm's length transactions or consideration of financial data of the investees, are used to measure fair value of certain financial instruments for which external market pricing information is not available. Fair value measurements are analysed by level in the fair value hierarchy as follows: (i) level one are measurements at quoted prices (unadjusted) in active markets for identical assets or liabilities, (ii) level two measurements are valuations techniques with all material inputs observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and (iii) level three measurements are valuations not based on solely observable market data (that is, the measurement requires significant unobservable inputs). Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period. Refer to Note 27.

### 3 Summary of Significant Accounting Policies (Continued)

*Transaction costs* are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial instrument. An incremental cost is one that would not have been incurred if the transaction had not taken place. Transaction costs include fees and commissions paid to agents (including employees acting as selling agents), advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs.

*Amortised cost* is the amount at which the financial instrument was recognised at initial recognition less any principal repayments, plus accrued interest, and for financial assets less any write-down for incurred impairment losses. Accrued interest includes amortisation of transaction costs deferred at initial recognition and of any premium or discount to maturity amount using the effective interest method. Accrued interest income and accrued interest expense, including both accrued coupon and amortised discount or premium (including fees deferred at origination, if any), are not presented separately and are included in the carrying values of related items of the statement of financial position.

*The effective interest method* is a method of allocating interest income or interest expense over the relevant period so as to achieve a constant periodic rate of interest (effective interest rate) on the carrying amount. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts (excluding future credit losses) through the expected life of the financial instrument or a shorter period, if appropriate, to the net carrying amount of the financial instrument. The effective interest rate discounts cash flows of variable interest instruments to the next interest repricing date except for the premium or discount which reflects the credit spread over the floating rate specified in the instrument, or other variables that are not reset to market rates. Such premiums or discounts are amortised over the whole expected life of the instrument. The present value calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate.

*Initial recognition of financial instruments.* Derivatives and other financial instruments at fair value through profit or loss are initially recorded at fair value. All other financial instruments are initially recorded at fair value plus transaction costs. Fair value at initial recognition is best evidenced by the transaction price. A gain or loss on initial recognition is only recorded if there is a difference between fair value and transaction price which can be evidenced by other observable current market transactions in the same instrument or by a valuation technique whose inputs include only data from observable markets. Gains or losses on initial recognition are recorded in the statement of profit or loss.

All purchases and sales of financial assets that require delivery within the time frame established by regulation or market convention ("regular way" purchases and sales) are recorded at settlement date, which is the date that the Bank commits to deliver a financial asset. All other purchases are recognised when the entity becomes a party to the contractual provisions of the instrument.

*Derecognition of financial assets.* The Bank derecognises financial assets when (a) the assets are redeemed or the rights to cash flows from the assets otherwise expired or (b) the Bank has transferred the rights to the cash flows from the financial assets or entered into a qualifying pass-through arrangement while (i) also transferring substantially all the risks and rewards of ownership of the assets or (ii) neither transferring nor retaining substantially all risks and rewards of ownership but not retaining control. Control is retained if the counterparty does not have the practical ability to sell the asset in its entirety to an unrelated third party without needing to impose additional restrictions on the sale.

*Cash and cash equivalents.* Cash and cash equivalents are items which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. All short term interbank placements, beyond overnight placements, are included in due from banks. Amounts, which relate to funds that are of a restricted nature, are excluded from cash and cash equivalents. Cash and cash equivalents include Cash on hand, unrestricted demand and overnight deposits with central and banks. Cash and cash equivalents are carried at amortised cost.

The payments or receipts presented in the separate statement of cash flows represent transfers of cash and cash equivalents by the Bank, including amounts charged or credited to current accounts of the Bank's counterparties held with the Bank, such as loan interest income or principal collected by charging the customer's current account or interest payments or disbursement of loans credited to the customer's current account, which represents cash or cash equivalent from the customer's perspective.

*Mandatory cash balances with the Central Banks.* Mandatory cash balances with the Central Banks are carried at amortised cost and are not available to finance the Bank's day to day operations and hence are not considered as part of cash and cash equivalents for the purposes of the statement of cash flows.

*Due from banks.* Amounts due from banks are recorded when the Bank advances money to counterparty banks with no intention of trading the resulting unquoted non-derivative receivable due on fixed or determinable dates. Amounts due from banks are carried at amortised cost.

### 3 Summary of Significant Accounting Policies (Continued)

*Loans and advances to customers.* Loans and advances to customers are recorded when the Bank advances money to purchase or originate an unquoted non-derivative receivable from a customer due on fixed or determinable dates and has no intention of trading the receivable. Loans and advances to customers are carried at amortised cost.

For the purposes of credit quality analysis the Bank categories loans and advances to the corporate clients, SME and private entrepreneurs into large, medium and small borrowers based on the size of the loan exposure:

Large borrowers	Above UAH 100 million
Loans to medium size borrowers	From UAH 1 million to UAH 100 million
Loans to small borrowers	Less than UAH 1 million

For the purposes of credit quality analysis the Bank categories loans and advances to individuals based on the size of the loan exposure:

Loans between UAH 1-100 million  
Loans less than UAH 1 million

When financial assets are renegotiated and the renegotiated terms and conditions differ substantially from the previous conditions, the new asset is initially recognised at its fair value.

*Impairment of financial assets carried at amortised cost.* Impairment losses are recognised in profit or loss for the period when incurred as a result of one or more events ("loss events") that occurred after the initial recognition of the financial asset and which have an impact on the amount or timing of the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. If the Bank determines that no objective evidence exists that impairment was incurred for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. The primary factors that the Bank considers in determining whether a financial asset is impaired are its overdue status and realisability of related collateral, if any.

The following other principal criteria are also used to determine whether there is objective evidence that an impairment loss has occurred:

- any instalment is overdue and the late payment cannot be attributed to a delay caused by the settlement systems;
- the borrower experiences a significant financial difficulty as evidenced by the borrower's financial information that the Bank obtains;
- the borrower considers bankruptcy or a financial reorganisation;
- there is an adverse change in the payment status of the borrower as a result of changes in the national or local economic conditions that impact the borrower; or
- the value of collateral significantly decreases as a result of deteriorating market conditions.

For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets and the experience of management in respect of the extent to which amounts will become overdue as a result of past loss events and the success of recovery of overdue amounts. Past experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect past periods and to remove the effects of past conditions that do not exist currently. Past experience is the basis for the estimation of the loss identification period, in particular the time lag between the actual loss event and identification of the loss event by the Bank. This approach ensures that the impact of losses which have not yet been specifically identified is included in the estimation of loan loss impairment.

If the terms of an impaired financial asset held at amortised cost are renegotiated or otherwise modified because of financial difficulties of the borrower or issuer, impairment is measured using the original effective interest rate before the modification of terms.

### 3 Summary of Significant Accounting Policies (Continued)

Impairment losses are always recognised through an allowance account to write down the asset's carrying amount to the present value of expected cash flows (which exclude future credit losses that have not been incurred) discounted at the original effective interest rate of the asset. The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account through profit or loss for the period.

Uncollectible assets are written off against the related allowance for impairment after all the necessary procedures to recover the asset have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off are credited to impairment loss account in profit or loss for the period.

*Repossessed collateral.* Repossessed collateral represents financial and non-financial assets repossessed by the Bank in settlement of past due loans. The assets are initially recognised at lower of fair value or gross carrying value of the related loans. It is the Bank's policy to dispose of repossessed properties in an orderly fashion. The proceeds are used to reduce or repay the outstanding claim. In general, the Bank does not occupy repossessed properties for business use.

*Credit related commitments.* The Bank enters into credit related commitments, including commitments to extend credit, letters of credit and financial guarantees. Financial guarantees represent irrevocable assurances to make payments in the event that a customer cannot meet its obligations to third parties and carry the same credit risk as loans. Financial guarantees and commitments to provide a loan are initially recognised at their fair value, which is normally evidenced by the amount of fees received. This amount is amortised on a proportion basis over the life of the commitment, except for commitments to originate loans if it is probable that the Bank will enter into a specific lending arrangement and does not expect to sell the resulting loan shortly after origination; such loan commitment fees are deferred and included in the carrying value of the loan on initial recognition. At the end of each reporting period, the commitments are measured at the higher of (i) the remaining unamortised balance of the amount at initial recognition and (ii) the best estimate of expenditure required to settle the commitment at the end of the reporting period.

*Investment securities available-for-sale.* This classification includes investment securities which the Bank intends to hold for an indefinite period of time and which may be sold in response to the needs for liquidity or changes in interest rates, exchange rates or equity prices.

Investment securities available-for-sale are carried at fair value. Interest income on available-for-sale debt securities is calculated using the effective interest method and recognised in profit or loss for the period. Dividends on available-for-sale equity instruments are recognised in profit or loss for the period when the Bank's right to receive payment is established and it is probable that the dividends will be collected. All other elements of changes in the fair value are recognised in other comprehensive income until the investment is derecognised or impaired, at which time the cumulative gain or loss is reclassified from other comprehensive income to profit or loss for the period.

Impairment losses are recognised in profit or loss for the period when incurred as a result of one or more events ("loss events") that occurred after the initial recognition of investment securities available-for-sale. A significant or prolonged decline in the fair value of an equity security below its cost is an indicator that it is impaired. The cumulative impairment loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that asset previously recognised in profit or loss – is reclassified from other comprehensive income to profit or loss for the period. Impairment losses on equity instruments are not reversed and any subsequent gains are recognised in other comprehensive income. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss for the period.

*Investment securities held to maturity.* This classification includes quoted non-derivative financial assets with fixed or determinable payments and fixed maturities that the Bank has both the intention and ability to hold to maturity. Management determines the classification of investment securities held to maturity at their initial recognition and reassesses the appropriateness of that classification at each balance sheet date. Investment securities held to maturity are carried at amortised cost.

### 3 Summary of Significant Accounting Policies (Continued)

*Investments in subsidiaries and associates.* The Bank accounts for its investments in subsidiaries and associates at cost. Dividends from a subsidiary or an associate are recognised in these separate financial statements when the Bank's right to receive the dividend is established.

*Investment property.* Investment property is property held by the Bank to earn rental income or for capital appreciation, or both and which is not occupied by the Bank. Investment property is initially recognised at cost, including transaction costs, and subsequently remeasured at fair value updated to reflect market conditions at the end of the reporting period. Fair value of investment property is the price that would be received from sale of the asset in an orderly transaction, without deduction of any transaction costs. Fair value of the Bank's investment property is determined based on reports of independent appraisers, who hold a recognised and relevant professional qualification and who have recent experience in valuation of property of similar location and category.

*Premises, leasehold improvements and equipment.* Premises, leasehold improvements and equipment are stated at cost or revalued amounts, as described below, less accumulated depreciation and accumulated impairment losses, where required.

Premises are subject to revaluation with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. Increases in the carrying amount arising on revaluation are credited to other comprehensive income and increase the revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised in other comprehensive income and decrease the previously recognised revaluation surplus in equity; all other decreases are charged to profit or loss for the period. The revaluation reserve of premises included in equity is transferred directly to retained earnings when the revaluation surplus is realised on the retirement or disposal of the asset. At the date of revaluation accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Management has updated the carrying value of premises carried on a revalued basis as at the reporting date using market based evidence and is satisfied that sufficient market based evidence of fair value is available to support the updated fair values.

Construction in progress is carried at cost less impairment where required. Construction in progress is not depreciated until the asset is available for use.

All other items of premises, leasehold improvements and equipment are stated at cost.

Costs of minor repairs and maintenance are expensed when incurred. Costs of replacing major parts or components of premises and equipment items are capitalised and the replaced part is retired.

At the end of each reporting period management assesses whether there is any indication of impairment of premises, leasehold improvements and equipment. If any such indication exists, management estimates the recoverable amount, which is determined as the higher of an asset's fair value less costs to sell and its value in use. The carrying amount is reduced to the recoverable amount and the impairment loss is recognised in profit or loss for the period to the extent it exceeds the previous revaluation surplus in equity. An impairment loss recognised for an asset in prior years is reversed if there has been a change in the estimates used to determine the asset's value in use or fair value less costs to sell.

Gains and losses on disposals determined by comparing proceeds with carrying amount are recognised in profit or loss for the period.

*Depreciation.* Land is not depreciated. Depreciation on other items of premises, leasehold improvements and equipment is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives as follows:

Premises	50 years
Computers	2-10 years
Furniture and equipment	4-10 years
Motor vehicles	5-10 years
Other	4-12 years

Leasehold improvements are depreciated over the term of the underlying lease. The residual value of an asset is the estimated amount that the Bank would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

### 3 Summary of Significant Accounting Policies (Continued)

*Intangible assets.* The Bank's intangible assets have definite useful life and primarily include capitalised computer software.

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Development costs that are directly associated with identifiable and unique software controlled by the Bank are recorded as intangible assets if an inflow of incremental economic benefits exceeding costs is probable. Capitalised costs include staff costs of the software development team and an appropriate portion of relevant overheads. All other costs associated with computer software, e.g. its maintenance, are expensed when incurred. Capitalised computer software is amortised on a straight line basis over expected useful lives from 2 to 5 years.

*Operating leases.* Where the Bank is a lessee in a lease which does not transfer substantially all the risks and rewards incidental to ownership from the lessor to the Bank, the total lease payments are charged to profit or loss a straight-line basis over the period of the lease.

*Finance lease receivables.* Where the Bank is a lessor in a lease which transfers substantially all the risks and rewards incidental to ownership to the lessee, the assets leased out are presented as a finance lease receivable and carried at the present value of the future lease payments. Finance lease receivables are initially recognised at commencement (when the lease term begins) using a discount rate determined at inception (the earlier of the date of the lease agreement and the date of commitment by the parties to the principal provisions of the lease).

The difference between the gross receivable and the present value represents unearned finance income. This income is recognised over the term of the lease using the net investment method (before tax), which reflects a constant periodic rate of return. Incremental costs directly attributable to negotiating and arranging the lease are included in the initial measurement of the finance lease receivable and reduce the amount of income recognised over the lease term. Finance income from leases is recorded within interest income in profit or loss for the period.

Impairment losses are recognised in profit or loss for the period when incurred as a result of one or more events ("loss events") that occurred after the initial recognition of finance lease receivables. The Bank uses the same principal criteria to determine whether there is objective evidence that an impairment loss has occurred, as for loans carried at amortised cost. Impairment losses are recognised through an allowance account to write down the receivables' net carrying amount to the present value of expected cash flows (which exclude future credit losses that have not been incurred), discounted at the interest rates implicit in the finance leases. The estimated future cash flows reflect the cash flows that may result from obtaining and selling the assets subject to the lease.

*Due to banks and other financial institutions.* Amounts due to banks and other financing institutions are recorded when money or other assets are advanced to the Bank by counterparty banks or other financing institutions. The non-derivative liability is carried at amortised cost.

*Customer accounts.* Customer accounts are non-derivative liabilities to individuals, state or corporate customers and are carried at amortised cost.

*Debt securities in issue and other borrowed funds.* Debt securities in issue include UAH denominated bonds issued by the Bank. Debt securities are stated at amortised cost. If the Bank purchases its own debt securities in issue, they are removed from the statement of financial position and the difference between the carrying amount of the liability and the consideration paid is included in gains arising from early retirement of debt. Other borrowed funds represent amounts due from Bank's special purpose vehicles, which issued Eurobonds. Amount are stated at amortised cost.

*Subordinated debt.* Subordinated debt represents long-term borrowing agreements that, in case of the Bank's default, would be secondary to the Bank's primary debt obligations. Subordinated debt is carried at amortised cost.

*Derivative financial instruments.* Derivative financial instruments, including foreign exchange contracts, forward rate agreements, currency swaps and currency options are carried at their fair value.

All derivative instruments are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in the fair value of derivative instruments are included in profit or loss for the period. The Bank does not apply hedge accounting.

### 3 Summary of Significant Accounting Policies (Continued)

Certain derivative instruments embedded in other financial instruments are treated as separate derivative instruments when their risks and characteristics are not closely related to those of the host contract, and the host contract itself is not designated as held for trading or as financial instruments at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value with changes in fair value recognised in profit or loss.

When the fair value of derivative does not change in response to the changes in the foreign exchange rates and other variables and future cash flows from the embedded derivative become certain the Bank ceased to account for an embedded derivative and recognises a receivable within other financial assets. The receivable continues to be measured at fair value through profit or loss until settled.

*Derecognition of financial liabilities.* The Bank derecognises a financial liability when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between the Bank and lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability or a part of it (whether or not attributable to the financial difficulty) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss. Terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 percent different from the discounted present value of the remaining cash flows of the original financial liability. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

*Income taxes.* Income taxes have been provided for in the separate financial statements in accordance with legislation enacted or substantively enacted by the end of reporting period. The income tax charge comprises current tax and deferred tax and is recognised in profit or loss for the year except if it is recognised in other comprehensive income or directly in equity because it relates to transactions that are also recognised, in the same or a different period, in other comprehensive income or directly in equity.

Current tax is the amount expected to be paid to or recovered from the taxation authorities in respect of taxable profits or losses for the current and prior periods. Taxable profits or losses are based on estimates if the financial statements are authorised prior to filing relevant tax returns. Taxes other than on income are recorded within administrative and other operating expenses.

Deferred income tax is provided using the balance sheet liability method for tax loss carry forwards and temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In accordance with the initial recognition exemption, deferred taxes are not recorded for temporary differences on initial recognition of an asset or a liability in a transaction other than a business combination if the transaction, when initially recorded, affects neither accounting nor taxable profit. Deferred tax liabilities are not recorded for temporary differences on initial recognition of goodwill and subsequently for goodwill which is not deductible for tax purposes. Deferred tax balances are measured at tax rates enacted or substantively enacted at the end of the reporting period which are expected to apply to the period when the temporary differences will reverse or the tax loss carry forwards will be utilised. Deferred tax assets and liabilities are netted only within the individual companies of the Bank. Deferred tax assets for deductible temporary differences and tax loss carry forwards are recorded only to the extent that it is probable that future taxable profit will be available against which the deductions can be utilised.

*Uncertain tax positions.* The Bank's uncertain tax positions are reassessed by management at the end of each reporting period. Liabilities are recorded for income tax positions that are determined by management as more likely than not to result in additional taxes being levied if the positions were to be challenged by the tax authorities. The assessment is based on the interpretation of tax laws that have been enacted or substantively enacted by the end of the reporting period and any known court or other rulings on such issues. Liabilities for penalties, interest and taxes other than on income are recognised based on management's best estimate of the expenditure required to settle the obligations at the end of the reporting period.

*Provisions for liabilities and charges.* Provisions for liabilities and charges are non-financial liabilities of uncertain timing or amount. They are accrued when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Please refer to Note 4 for significant assumptions used.

### 3 Summary of Significant Accounting Policies (Continued)

*Trade and other payables.* Trade payables are accrued when the counterparty has performed its obligations under the contract and are carried at amortised cost.

*Share capital and share premium.* Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Any excess of the fair value of consideration received over the par value of shares issued is recorded as share premium in equity.

Profit or loss arising from transactions with the owner is recognised in equity under "Result from transactions with the owner".

*Income and expense recognition.* Interest income and expense are recorded for all debt instruments on an accrual basis using the effective interest method. This method defers, as part of interest income or expense, all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Fees integral to the effective interest rate include origination fees received or paid by the entity relating to the creation or acquisition of a financial asset or issuance of a financial liability, for example fees for evaluating creditworthiness, evaluating and recording guarantees or collateral, negotiating the terms of the instrument and for processing transaction documents. Commitment fees received by the Bank to originate loans at market interest rates are integral to the effective interest rate if it is probable that the Bank will enter into a specific lending arrangement and does not expect to sell the resulting loan shortly after origination. The Bank does not designate loan commitments as financial liabilities at fair value through profit or loss.

When loans and other debt instruments become doubtful of collection, they are written down to the present value of expected cash inflows and interest income is thereafter recorded for the unwinding of the present value discount based on the asset's effective interest rate which was used to measure the impairment loss. All other fees, commissions and other income and expense items are generally recorded on an accrual basis by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Loan syndication fees are recognised as income when the syndication has been completed and the Bank retains no part of the loan package for itself or retains a part at the same effective interest rate as for the other participants.

Commissions and fees arising from negotiating, or participating in the negotiation of a transaction for a third party, such as the acquisition of loans, shares or other securities or the purchase or sale of businesses, and which are earned on execution of the underlying transaction, are recorded on its completion. Portfolio and other management advisory and service fees are recognised based on the applicable service contracts, usually on a time-proportion basis. Asset management fees related to investment funds are recorded rateably over the period the service is provided. The same principle is applied for wealth management, financial planning and custody services that are continually provided over an extended period of time.

*Foreign currency translation.* The functional currency of the Bank, and the Bank's presentation currency, is the national currency of Ukraine, Ukrainian hryvnia ("UAH"). The functional currency of Cyprus branch is the currency of the primary economic environment in which the branch operates, being Euro ("EUR").

Monetary assets and liabilities are translated into functional currency at the official exchange rate of the NBU at the end of the respective reporting period. Foreign exchange gains and losses resulting from the settlement of transactions and from the translation of monetary assets and liabilities into functional currency at period-end official exchange rates of the NBU are recognised in profit or loss for the period (as foreign exchange translation gains less losses). Translation at period-end rates does not apply to non-monetary items that are measured at historical cost. Non-monetary items measured at fair value in a foreign currency, including equity instruments, are translated using the exchange rates at the date when the fair value was determined. Effects of exchange rate changes on non-monetary items measured at fair value in a foreign currency are recorded as part of the fair value gain or loss.

The results and financial position of the Cyprus branch are translated into the presentation currency as follows:

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the respective reporting period;
- (ii) income and expenses are translated at exchange rate for the date of accrual;
- (iii) components of equity are translated at the historic rate; and
- (iv) all resulting exchange differences are recognised in profit or loss.

### 3 Summary of Significant Accounting Policies (Continued)

*Rates of exchange.* The principal rates of exchange used for translating foreign currency balances were as follows:

	31 December 2016, UAH	31 December 2015, UAH
1 US Dollar (USD)	27.190858	24.000667
1 Euro (EUR)	28.422604	26.223129

*Fiduciary assets.* Assets held by the Bank in its own name, but on the account of third parties, are not reported in the separate statement of financial position. For the purposes of disclosure, fiduciary activities do not encompass safe custody functions. Commissions received from fiduciary activities are shown in fee and commission income.

*Offsetting.* Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts, and there is an intention to either settle on a net basis, or to realise the asset and settle the liability simultaneously. Such a right of set off (a) must not be contingent on a future event and (b) must be legally enforceable in all of the following circumstances: (i) in the normal course of business, (ii) the event of default and (iii) the event of insolvency or bankruptcy.

*Earnings per share.* Earnings per share are determined by dividing the profit or loss attributable to owners of the Bank by the weighted average number of participating shares outstanding during the reporting period.

*Staff costs and related contributions.* Wages, salaries, contributions to state pension and social insurance funds, paid annual leave and sick leave, bonuses, and non-monetary benefits are accrued in the period in which the associated services are rendered by the employees of the Bank. The Bank has no legal or constructive obligation to make pension or similar benefit payments beyond the payments to the statutory defined contribution scheme.

*Segment reporting.* Segments are reported in a manner consistent with the internal reporting provided to the Bank's chief operating decision maker. Segments whose revenue, result or assets are ten percent or more of all the segments are reported separately.

*Presentation of separate statement of financial position in order of liquidity.* The Bank does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, analysis of assets and liabilities by their expected maturities is presented by category: demand and less than 1 month, from 1 to 3 months, from 3 to 12 months, over 1 year. Refer to Note 24.

*Reclassifications.* The following reclassifications have been made to 2015 balances to conform to the 2016 presentation.

In millions of Ukrainian hryvnias	As previously reported	Reclassification	As adjusted
<i>Statement of profit or loss and other comprehensive income</i>			
Interest income	30,309	331	30,640
Fee and commission income	6,991	(331)	6,660
<i>Statement of cash flows</i>			
Interest received	27,166	331	27,497
Fee and commission received	6,991	(331)	6,660

### 4 Critical Accounting Estimates, and Judgements in Applying Accounting Policies

The Bank makes estimates and assumptions that affect the amounts recognised in the separate financial statements and the carrying amounts of assets and liabilities within the next financial period. Estimates and judgements are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Management also makes certain judgements, apart from those involving estimations, in the process of applying the accounting policies. Judgements that have the most significant effect on the amounts recognised in the financial statements and estimates that can cause a significant adjustment to the carrying amount of assets and liabilities within the next financial period include:

*Going concern and compliance with local regulatory requirements.* These financial statements have been prepared on the going concern basis, which assumes that the Bank will continue in operation for the foreseeable future and will be able to realise its assets and discharge its liabilities in the normal course of business.

#### 4 Critical Accounting Estimates, and Judgements in Applying Accounting Policies (Continued)

For the year ended 31 December 2016, the Bank recognised a net loss of UAH 176,238 million resulting primarily from UAH 154,617 million of charge for impairment of loans and advances to customers, and it experienced net cash outflow from its operating activities of UAH 19,430 million. The Bank's negative equity position was UAH 882 million as at 31 December 2016. In addition, the Bank had a gap of UAH 132,424 million between assets and liabilities with maturity of less than one year, which may lead to the Bank's inability to meet its payment obligations. Also, as at 31 December 2016, the Bank was not in compliance with capital adequacy ratio, maximum exposure to a single borrower, long open currency position and short open currency position ratios established by the National Bank of Ukraine. Refer to Notes 25 and 26.

In February 2017, the Bank's share capital was further increased by UAH 9,800 million.

According to the "Letter of Intent" addressed to the International Monetary Fund dated 2 March 2017 and signed by the President, the Prime Minister, the Minister of Finance and the Governor of the National Bank of Ukraine (the Letter), Ukraine is taking decisive steps to ensure that the nationalization of the Bank is efficient and transparent. The Letter states that by the end of May 2017 the Ministry of Finance will decide on final steps to complete the Bank's restructuring, including the coverage of any additional capital needs assessed at that time.

In addition, the Letter envisaged involvement of an internationally recognized firm that, on behalf of the Bank will negotiate the restructuring and collection terms of the loans with a gross carrying value of approximately UAH 155 billion, as well as of other impaired loans, which requires the use of similar approach, on the basis of international best practices, including as a minimum borrowers' and lessees' reliable and credible supporting information on ultimate beneficiary owners, financials, main activities. The firm was selected by the Supervisory Board of the Bank in April 2017.

In January 2017, management of the Bank set up a separate department on restructuring of toxic assets, which performed analysis of and categorized the portfolio of assets with a total carrying value (gross) of UAH 193,889 million as at 31 December 2016. In addition, the Bank's management approved the Bank's financial model which comprise, in particular, the following steps:

- increase in profitability of banking products;
- expansion of alternative distribution channels;
- increase in credit card issuance;
- decrease in overheads including expenses on the branch network.

The Bank's management analysed all available sources of material information uncertainty. Considering their possible effect and the information presented above, the Bank's management came to the conclusion that going concern assumption is still applicable in preparation of these separate financial statements.

*Defining of related party and initial recognition of related party transactions.* In the normal course of business the Bank enters into transactions with its related parties. IAS 39 requires initial recognition of financial instruments based on their fair values. Judgment is applied in determining if transactions are priced at market or non-market interest rates, where there is no active market for such transactions. The basis for judgment is pricing for similar types of transactions with unrelated parties and effective interest rate analysis.

*Impairment losses on loans and advances.* The Bank regularly reviews its loan portfolios to assess impairment. In determining whether an impairment loss should be recorded in profit or loss for the period, the Bank makes judgements as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience. The fair value of collateral substantially contributes to the assessment of whether there is an impairment of loans and advances to customers.

#### 4 Critical Accounting Estimates, and Judgements in Applying Accounting Policies (Continued)

A 10% increase or decrease in actual loss experience compared to the loss estimates used would result in an increase or decrease in loan impairment losses of UAH 693 million or UAH 1,360 million (2015: increase or decrease in loan impairment losses of UAH 620 million or UAH 834 million), respectively. Impairment losses for individually significant loans are based on estimates of discounted future cash flows of the individual loans, taking into account repayments and realisation of any assets held as collateral against the loans. A 10% increase or decrease in the actual loss experience compared to the estimated future discounted cash flows from individually significant loans, which could arise from differences in amounts and timing of the cash flows, would result in an increase or decrease in loan impairment losses of UAH 2,731 million or UAH 16,021 million (2015: increase or decrease in loan impairment losses of UAH 1,418 million or UAH 1,650 million), respectively.

During the year of 2016, the Bank introduced a number of changes to its methodology for calculation of allowance for impairment on mortgage loans to individuals. In particular, for the calculation of loss given default as at 31 December 2016 the Bank used a more conservative 3-years migration matrix instead of 10-years loan losses statistics used in previous periods. In addition, in prior years the Bank was deducting collateral value to arrive at outstanding amount at risk and has changed this to include collateral indirectly in migration matrix statistics on calculating loss given default. In case no changes were applied by the Bank to assess allowance for impairment on mortgage loans as at 31 December 2016 allowance for impairment amount would be lower by UAH 3,216 million.

*The fair value of embedded derivatives.* The fair values of financial derivatives that are not quoted in active markets are determined by using valuation techniques. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed by qualified personnel. To the extent practical, only observable data are used in models, but where this is not feasible, for example, estimates of historical volatility for exchange rates, a degree of judgment is required in establishing fair values. If the historical volatility would be higher by 10% or lower by 5%, the fair value of the embedded derivative assets and the respective consolidated statement of profit or loss and other comprehensive income amount would increase by UAH 456 million and decrease by UAH 209 million. Additional details are provided in Note 27.

*Provision associated with Crimea liabilities.* As described in Note 26 the Bank has recognised a provision of UAH 1,299 million relating to its operations in Crimea. Provision was assessed based on the probable future negative outcome of the claims presented against the Bank and unfavourable resolution of the disputes the Bank is being party to.

*Accounting for assets and liabilities associated with operations in the Donetsk and Lugansk regions.* As at 31 December 2016, the Bank had assets and liabilities in the areas of Donetsk and Lugansk regions which are not controlled by the Ukrainian government. Whilst management believes it is taking appropriate actions to reinstate the control over or recovery of its assets in Donetsk and Lugansk regions, violence and armed conflict negatively affect the Bank's operations and financial position. The final outcome may differ from the management's assessment. Please refer to Notes 9 and 11 for more details in relation to assets and liabilities associated with the operations in these areas.

*Tax legislation.* Ukrainian tax, currency and customs legislation is subject to varying interpretations. Refer to Note 26.

*Valuation of own use premises, investment properties and repossessed collateral.* Premises, investment properties and repossessed collateral of the Bank are stated at fair value based on the reports prepared by a valuation company using sales comparison approach. When performing revaluation certain judgements and estimates are applied by the valuers in determination of the comparison of premises to be used in sales comparison approach. Changes in assumptions about these factors could affect reported fair values. As at 31 December 2016, the Bank had the valuation based on the comparative sales of premises with the price per square meter varying from UAH 1,423 to UAH 38,263 (2015: UAH 1,226 to UAH 36,837), depending upon the location and condition of premises. Should price per square metre be 10% higher or 10% lower, the fair value of premises would be UAH 189 million (2015: UAH 188 million) higher or lower respectively.

## 5 Adoption of New or Revised Standards and Interpretations

The following amended standards became effective for the Bank from 1 January 2016, but did not have any material impact on the Bank:

- IFRS 14, Regulatory Deferral Accounts (issued in January 2014 and effective for annual periods beginning on or after 1 January 2016).
- Accounting for Acquisitions of Interests in Joint Operations - Amendments to IFRS 11 (issued on 6 May 2014 and effective for the periods beginning on or after 1 January 2016).
- Clarification of Acceptable Methods of Depreciation and Amortisation - Amendments to IAS 16 and IAS 38 (issued on 12 May 2014 and effective for the periods beginning on or after 1 January 2016).
- Agriculture: Bearer plants - Amendments to IAS 16 and IAS 41 (issued on 30 June 2014 and effective for annual periods beginning 1 January 2016).
- Equity Method in Separate Financial Statements - Amendments to IAS 27 (issued on 12 August 2014 and effective for annual periods beginning 1 January 2016).
- Annual Improvements to IFRSs 2014 (issued on 25 September 2014 and effective for annual periods beginning on or after 1 January 2016).
- Disclosure Initiative Amendments to IAS 1 (issued in December 2014 and effective for annual periods on or after 1 January 2016).
- Investment Entities: Applying the Consolidation Exception Amendment to IFRS 10, IFRS 12 and IAS 28 (issued in December 2014 and effective for annual periods on or after 1 January 2016).

## 6 New Accounting Pronouncements

Certain new standards and interpretations have been issued that are mandatory for the annual periods beginning on or after 1 January 2017 or later, and which the Bank has not early adopted.

*IFRS 9 "Financial Instruments: Classification and Measurement" (amended in July 2014 and effective for annual periods beginning on or after 1 January 2018).* Key features of the new standard are:

- Financial assets are required to be classified into three measurement categories: those to be measured subsequently at amortised cost, those to be measured subsequently at fair value through other comprehensive income (FVOCI) and those to be measured subsequently at fair value through profit or loss (FVPL).
- Classification for debt instruments is driven by the entity's business model for managing the financial assets and whether the contractual cash flows represent solely payments of principal and interest (SPPI). If a debt instrument is held to collect, it may be carried at amortised cost if it also meets the SPPI requirement. Debt instruments that meet the SPPI requirement that are held in a portfolio where an entity both holds to collect assets' cash flows and sells assets may be classified as FVOCI. Financial assets that do not contain cash flows that are SPPI must be measured at FVPL (for example, derivatives). Embedded derivative assets are no longer separated from financial assets but will be included in assessing the SPPI condition.
- Investments in equity instruments are always measured at fair value. However, management can make an irrevocable election to present changes in fair value in other comprehensive income, provided the instrument is not held for trading. If the equity instrument is held for trading, changes in fair value are presented in profit or loss.
- Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The key change is that an entity will be required to present the effects of changes in own credit risk of financial liabilities designated at fair value through profit or loss in other comprehensive income.
- IFRS 9 introduces a new model for the recognition of impairment losses – the expected credit losses (ECL) model. There is a 'three stage' approach which is based on the change in credit quality of financial assets since initial recognition. In practice, the new rules mean that entities will have to record an immediate loss equal to the 12 - month ECL on initial recognition of financial assets that are not credit impaired (or lifetime ECL for trade receivables). Where there has been a significant increase in credit risk, impairment is measured using lifetime ECL rather than 12 - month ECL. The model includes operational simplifications for lease and trade receivables.
- Hedge accounting requirements were amended to align accounting more closely with risk management. The standard provides entities with an accounting policy choice between applying the hedge accounting requirements of IFRS 9 and continuing to apply IAS 39 to all hedges because the standard currently does not address accounting for macro hedging.

The standard is expected to have a significant impact on the Bank's allowance for loan impairment. The Bank is currently assessing the impact of the new standard on its financial statements.

## 6 New Accounting Pronouncements (Continued)

*Disclosure Initiative – Amendments to IAS 7 "Statement of Cash Flows" (issued on 29 January 2016 and effective for annual periods beginning on or after 1 January 2017).* The amended IAS 7 will require disclosure of a reconciliation of movements in liabilities arising from financial activities. The Bank is currently assessing the impact of the amendments on its financial statements.

*IFRS 15, Revenue from Contracts with Customers (issued on 28 May 2014 and effective for the periods beginning on or after 1 January 2018).* The new standard introduces the core principle that revenue must be recognised when the goods or services are transferred to the customer, at the transaction price. Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements. When the consideration varies for any reason, minimum amounts must be recognised if they are not at significant risk of reversal. Costs incurred to secure contracts with customers have to be capitalised and amortised over the period when the benefits of the contract are consumed. The standard is not expected to have any material impact on the Bank's financial statements.

*IFRS 16 "Leases" (issued in January 2016 and effective for annual periods beginning on or after 1 January 2019).* The new standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. All leases result in the lessee obtaining the right to use an asset at the start of the lease and, if lease payments are made over time, also obtaining financing. Accordingly, IFRS 16 eliminates classification of leases as either operating leases or finance leases as is required by IAS 17 and, instead, introduces a single lessee accounting model. Lessees will be required to recognise: (a) assets and liabilities for all leases with the term of more than 12 months, unless the underlying asset is of low value, and (b) depreciation of lease assets separately from interest on lease liabilities in the income statement. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. The standard is not expected to have any material impact on the Bank's financial statements.

*Disclosure Initiative Amendments to IAS 1 (issued in December 2014 and effective for annual periods on or after 1 January 2016).* The Standard was amended to clarify the concept of materiality and explains that an entity need not provide a specific disclosure required by an IFRS if the information resulting from that disclosure is not material, even if the IFRS contains a list of specific requirements or describe them as minimum requirements. The Standard also provides new guidance on subtotals in financial statements, in particular, such subtotals (a) should be comprised of the items made up of amounts recognized and measured in accordance with IFRS; (b) be presented and labelled in a manner that makes the line items that constitute the subtotal more clear and understandable; (c) be consistent from period to period; and (d) not be displayed with more prominence than the subtotals and totals required by IFRS standards. The Bank is currently assessing the impact of the amendments on its consolidated financial statements.

The following other new pronouncements are not expected to have any material impact on the Bank when adopted:

- Recognition of Deferred Tax Assets for Unrealised Losses - Amendments to IAS 12 (issued on 19 January 2016 and effective for annual periods beginning on or after 1 January 2017).
- Amendments to IFRS 2, Share - based Payment (issued on 20 June 2016 and effective for annual periods beginning on or after 1 January 2018).
- Amendments to IFRS 4, Insurance Contracts (issued on 12 September 2016 and effective for annual periods beginning on or after 1 January 2018).

## 7 Cash and Cash Equivalents and Mandatory Reserves

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Cash on hand	12,101	12,008
Cash balances with the NBU	5,644	3,766
Cash balances with the Central Bank of Cyprus	1,505	168
Correspondent accounts and overnight placements with banks		
- Ukraine	406	-
- OECD	10,483	13,061
- Non-OECD	20	181
Total cash and cash equivalents and mandatory reserves	30,159	29,184

## 7 Cash and Cash Equivalents and Mandatory Reserves (Continued)

In accordance with the NBU regulation, the Bank should maintain its mandatory reserve balance at the level of 3 to 6.5 percent (31 December 2015: 3 to 6.5 percent) of its certain obligations.

As at 31 December 2016 and 2015, the Bank was in compliance with the required level of mandatory reserve balance of UAH 7,518 million (31 December 2015: UAH 6,199 million). However, the Bank did not comply with this requirement throughout the year 2016 as a number of daily exceptions exceeded the level allowed by the NBU. In 2016 and to the date of these financial statements the NBU did not apply any restrictions to the Bank specific to this incompliance.

As at 31 December 2016, the mandatory reserve balances of the Bank's branch in Cyprus kept with the Central Bank of Cyprus was UAH 65 million (31 December 2015: UAH 168 million). In addition, as at 31 December 2016 cash balances with the Central Bank of Cyprus of UAH 1,421 million were restricted in similar manner as a mandatory reserve balances and were not available for operating activities.

As the respective liquid assets are not freely available to finance the day-to-day operations of the Bank, for the purposes of the statement of cash flow, UAH 1,486 million of such balances were excluded from cash and cash equivalents (31 December 2015: UAH 168 million).

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Total cash and cash equivalents and mandatory reserves	30,159	29,184
Less mandatory reserves and other restricted balances	(1,486)	(168)
Cash and cash equivalents for the purposes of the statement of cash flows	28,673	29,016

As at 31 December 2016, UAH 1,294 million of mandatory reserve balances with the NBU (31 December 2015: UAH 1,294 million) has been pledged as collateral for the refinancing loan received from the NBU. Refer to Notes 14 and 26.

The credit quality of cash and cash equivalents balances may be summarised based on Moody's ratings at 31 December 2016 as follows:

<i>In millions of Ukrainian hryvnias</i>	Cash on hand	Cash balances with central banks, incl. mandatory reserves	Correspondent accounts and overnight placements with banks	Total
<i>Neither past due nor impaired</i>				
Cash on hand	12,101	-	-	12,101
Cash balances with central banks	-	7,149	-	7,149
Aa1 to Aa3 rated	-	-	9,523	9,523
A1 to A3 rated	-	-	732	732
Baa2 to Baa3 rated	-	-	52	52
B3 rated	-	-	19	19
Ca rated	-	-	364	364
Unrated	-	-	219	219
Total cash and cash equivalents and mandatory reserves	12,101	7,149	10,909	30,159

## 7 Cash and Cash Equivalents and Mandatory Reserves (Continued)

The credit quality of cash and cash equivalents balances may be summarised based on Moody's ratings at 31 December 2015 as follows:

<i>In millions of Ukrainian hryvnias</i>	Cash on hand	Cash balances with central banks, incl. mandatory reserves	Correspondent accounts and overnight placements with banks	Total
<i>Neither past due nor impaired</i>				
Cash on hand	12,008	-	-	12,008
Cash balances with central banks	-	3,934	-	3,934
Aa1 to Aa3 rated	-	-	2,708	2,708
A1 to A3 rated	-	-	5,728	5,728
Baa1 to Baa3 rated	-	-	4,607	4,607
B1 to B3 rated	-	-	3	3
Unrated	-	-	196	196
Total cash and cash equivalents and mandatory reserves	12,008	3,934	13,242	29,184

Geographical, maturity and interest rate analysis of cash and cash equivalents and mandatory reserves is disclosed in Note 24.

## 8 Due from Banks

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Guarantee deposits with banks	2,410	3,365
Total due from banks	2,410	3,365

Refer to Note 26 for the information on pledged due from banks balances.

Analysis by credit quality of amounts due from banks outstanding at 31 December 2016 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Guarantee deposits with banks	Total
<i>Neither past due nor impaired</i>		
A1 to A3 rated	2,400	2,400
Unrated	10	10
Total due from banks	2,410	2,410

Analysis by credit quality of amounts due from banks outstanding at 31 December 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Guarantee deposits with banks	Total
<i>Neither past due nor impaired</i>		
Aa2 rated	339	339
A2 to A3 rated	1,111	1,111
Baa1 rated	59	59
Baa2 rated	1,856	1,856
Total due from banks	3,365	3,365

The credit ratings are based on Moody's ratings where available, or other rating agencies converted to the nearest equivalent on Moody's rating scale. The primary factor that the Bank considers in determining whether a balance is impaired is its overdue status.

## 8 Due from Banks (Continued)

Refer to Note 27 for the estimated fair value of each class of amounts due from banks. Geographical, maturity and interest rate analysis of due from banks is disclosed in Note 24.

## 9 Loans and Advances to Customers

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Corporate loans	178,428	183,864
Loans to individuals – cards	19,878	20,362
Loans to individuals – mortgage	9,048	8,099
Loans to individuals – auto	264	261
Loans to individuals – consumer	1,069	610
Loans to individuals – other	1,283	1,648
Loans to small and medium enterprises (SME)	2,494	2,252
Finance lease receivables – corporate customers	15,296	329
Finance lease receivables – individuals	164	264
Total loans and advances to customers, gross	227,924	217,689
Less: Allowance for loan impairment	(184,341)	(28,375)
Total loans and advances to customers	43,583	189,314

During 2016, the Bank repossessed collateral under defaulted loan agreements with a carrying value of UAH 21,836 million as at 31 December 2016. Refer to Note 13.

In October - November 2016, the Bank restructured a part of its loan portfolio with a total value of UAH 137,082 million before allowance for impairment as at 31 December 2016. During the restructuring, the Bank changed loans currency to UAH, lowered interest rates, extended maturity of loans to 2024 and 2025, converted some of loans into finance lease and changed collateral pledged under loans. As at 31 December 2016, the Bank recognised UAH 135,018 million of allowance for impairment under these loans.

As at 31 December 2016, interest income of UAH 5,806 million (31 December 2015: UAH 7,356 million) was accrued on impaired loans and advances to customers.

The movements in allowances for impairment of loans and advances during 2016 are as follows:

<i>In millions of Ukrainian hryvnias</i>	Corpo- rate loans	Loans to individuals					SME	Finance lease receivables	Total
		Cards	Mortgage	Auto	Consumer	Other			
Allowance for loan impairment at 1 January 2016	20,794	2,860	2,800	225	71	636	917	72	28,375

Other	2,470	1	5,880	2
Total loans and advances to customers, gross	227,924	100	217,689	100

Economic and business sector risk concentration within the customer loan portfolio for borrowers engaged in several activities is determined by the main activity of borrowers.

As at 31 December 2016, the gross aggregate amount of loans to top 10 borrowers of the Bank amounted to UAH 53,193 million (31 December 2015: UAH 50,187 million) or 23% of the gross loan portfolio (31 December 2015: 23%). Allowance for loan impairment relating to these borrowers was UAH 52,975 million (31 December 2015: UAH 4,849 million).

As at 31 December 2016, card loans issued to individuals with a gross value of UAH 15,678 million were pledged as a collateral under the NBU refinancing loans (31 December 2015: loans issued to ninety one corporate borrowers with a gross value of UAH 43,725 million). Please refer to Notes 14 and 26.

Total loans and advances to customers	163,070	17,502	5,299	36	539	1,012	1,335	521	189,314

The Bank applied the portfolio assessment methodology prescribed by IAS 39, *Financial Instruments: Recognition and Measurement*, and created portfolio allowance for impairment losses that were incurred but have not been specifically identified with any individual loan by the end of the reporting period. The Bank's policy is to classify each loan as 'neither past due nor impaired' until specific objective evidence of impairment of the loan is identified.

The primary factors that the Bank considers in determining whether a loan is impaired are its overdue status, a significant financial difficulty as evidenced by the borrower's financial information and decrease in the fair value of related collateral and its realisability.

## 9 Loans and Advances to Customers (Continued)

Past due but not impaired loans, represent collateralised loans where the fair value of collateral covers the overdue interest and principal repayments, except for card loans and consumer loans for which impairment is recognised starting from 90 days past due. The amount reported as past due but not impaired is the whole balance of such loans, not only the individual instalments that are past due.

Management considers that loans and advances to large and small size borrowers with longer credit history are of a higher credit quality than the rest of the loan portfolio.

The financial effect of collateral is presented by disclosing collateral values separately for (i) those assets where collateral and other credit enhancements are equal to or exceed carrying value of the asset ("over-collateralised assets") and (ii) those assets where collateral and other credit enhancements are less than the carrying value of the asset ("under-collateralised assets"). Mortgage loans are secured by underlying housing real estate. Auto loans are secured by the underlying cars. Loans to small and medium enterprises are secured by underlying commercial real estate, equipment or commercial cars. Finance lease receivables due from individuals and from corporate customers are secured by cars and real estate. The tables below exclude card loans, consumer and part of loans to small and medium enterprises in amount of UAH 552 million (31 December 2015: UAH 530 million), issue of which did not require any collateral.

The effect of collateral at 31 December 2016:

<i>In millions of Ukrainian hryvnias</i>	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Expected cash flows from collateral realisation	Carrying value of the assets	Expected cash flows from collateral realisation
Corporate loans	6,235	9,072	3,085	55
Loans to individuals – mortgage	1,461	6,673	549	220
Loans to individuals – auto	0	2	13	-
Loans to individuals – other	41	224	310	15
Loans to SME	87	340	263	62
Finance lease receivables	10,602	11,907	3,593	2,713

The effect of collateral at 31 December 2015:

<i>In millions of Ukrainian hryvnias</i>	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Expected cash flows from collateral realisation	Carrying value of the assets	Expected cash flows from collateral realisation
Corporate loans	145,740	182,948	17,330	12,795
Loans to individuals – mortgage	1,763	4,610	3,536	2,285
Loans to individuals – auto	1	7	35	1
Loans to individuals – other	673	1,566	339	27
Loans to SME	78	291	727	210
Finance lease receivables	502	916	19	11

Upon initial recognition of loans and advances to customers, the fair value of collateral is based on valuation techniques commonly used for the corresponding assets, market prices, indexes of similar assets.

Included in loans and advances to customers are loans issued by the Bank to the customers in Donetsk and Lugansk regions.

From July 2014, the National Bank of Ukraine introduced the emergency regime of operation for the banking system in Donetsk, Lugansk regions and the Autonomous Republic of Crimea. In November 2014, President of Ukraine ordered suspension of public services, budget financing and all banking operations in eastern regions not controlled by the Ukrainian government. As a result of the tensions around Lugansk and Donetsk, the Bank had to close all of its branches in the area not controlled by the Ukrainian government. The Bank also developed a program of credit holidays for citizens in this region providing special conditions for the repayment of interest and principal, waiving all sanctions for overdue payment of loans until finalisation of anti-terrorist operation. In addition the Bank decreased loan limits to clients located in Donetsk and Lugansk regions, not controlled by the Ukrainian government. Currently the final outcome of the future of these regions is difficult to determine.

## 9 Loans and Advances to Customers (Continued)

The following table represents loans issued to the borrowers, operating in the Donetsk and Lugansk regions, not controlled by the Ukrainian government:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Loans to individuals – cards	2,117	2,229
Loans to individuals – mortgage	289	215
Loans to individuals – consumer	46	26
Loans to individuals – auto	24	22
Loans to individuals – other	6	7
Loans to SME	176	175
Finance lease receivables – individuals	51	52
Total loans and advances to customers, gross	2,709	2,726
Less: Allowance for loan impairment	(2,591)	(1,596)
Total	118	1,130

As at 31 December 2015, the Bank had outstanding derivatives embedded in loans issued to customers which were separated from the host instrument and carried at fair value of UAH 30,673 million. This embedded derivatives were represented by a currency option maturing in up to 3 years.

Further information on fair value and movements of embedded derivatives related to borrowers is disclosed in Note 27.

Refer to Note 27 for the estimated fair value of each class of loans and advances to customers. Geographical, maturity and interest rate analysis of loans and advances to customers is disclosed in Note 24. Information on related party balances is disclosed in Note 29.

## 10 Investment securities available-for-sale

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Long-term government debt securities with an embedded option	47,046	-
Long-term government debt securities without an embedded option	17,363	-
Unquoted shares	-	1,734
Total investment securities available for sale	64,409	1,734

In December 2016, the Bank received government bonds with a nominal value of UAH 107,000 million as a contribution to the Bank's share capital, including government bonds with embedded option in amount of UAH 64,000 million and government bonds without embedded option in amount of UAH 43,000 million.

As at 31 December 2016, the carrying value of government bonds without embedded option was UAH 17,363 million. They earn a coupon interest rate of 9.5% and mature in March 2030–November 2031.

As at 31 December 2016, the carrying value of government bonds with embedded option was UAH 47,046 million. The bonds earn a coupon interest rate of 6.0% and mature in September 2028–October 2031. The nominal value (principle) of these government bonds is indexed to an increase in exchange rate of UAH to USD between weighted average monthly exchange rate at the interbank market for a month prior the issue and a month before the maturity date. Coupon is not subject to indexation.

At the date of initial recognition, the difference between the nominal and fair values of the government bonds with an embedded option and related derivative was recognized in equity within result of transactions with the owner in the amount of UAH 9,934 million, including a gain on recognition of embedded derivative of UAH 27,296 million and a loss on recognition of related host contract (available for sale securities) of UAH 17,362 million. The embedded derivative was accounted separately from the host contract.

As at 31 December 2016, accrued interest income of UAH 19 million was included in investments available-for-sale.

## 11 Premises, leasehold improvements and Equipment and Intangible Assets

Carrying amount at 31 December 2016		2,062	37	977	52	828	3,956

As at 31 December 2016, furniture, equipment, intangible assets and other included UAH 368 million of intangible assets, including UAH 340 million of internally generated intangible assets related to software development (2015: UAH 18 million, including no internally generated intangible assets related to software development).

Premises have been revalued at fair value at 1 November 2016. The valuation was carried out by an external valuation company who holds a suitable professional qualification and who has recent experience in valuation of assets of similar location and category. The basis of valuation of premises was observable market prices.

As at 31 December 2016 premises carried at UAH 2,062 million (31 December 2015: UAH 1,289 million) included UAH 955 million of revaluation surplus (31 December 2015: UAH 617 million). As at 31 December 2016, a cumulative deferred tax liability of UAH 172 million (31 December 2015: UAH 111 million) with respect to this valuation adjustment has been recorded in other comprehensive income. As at 31 December 2016 the carrying amount of premises would have been UAH 1,258 million (31 December 2015: UAH 744 million) had the assets been carried at cost less depreciation.

As at 31 December 2016, the gross carrying amount of fully depreciated premises, leasehold improvements and equipment that are still in use was UAH 251 million (31 December 2015: UAH 257 million).

As at 31 December 2016, premises carried at UAH 1,168 million (31 December 2015: UAH 739 million) have been pledged as collateral under the refinancing loans received from the NBU. Refer to Note 14 and 26.

## 12 Other assets

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Receivables on conversion of liabilities to equity	8,878	-
Inventory	239	45
Prepayments for services	2	4
Prepaid taxes other than income tax	8	16
Precious metals	1	1
Other	457	234
<b>Total other assets</b>	<b>9,585</b>	<b>300</b>

Receivables originated on conversion of liabilities to equity of UAH 8,878 million were recorded by the Bank at the nationalisation and following the changes in the Bank's charter. Management of the Bank expects to recover this amount in full.

## 13 Repossessed collateral

In 2016 the Bank took possession of various real estate properties as a settlement of past due loans to customers with a total carrying value of UAH 21,836 million as at 31 December 2016. The Bank expects to dispose of these assets in an orderly fashion. The assets were initially recognised at fair value when repossessed.

## 14 Due to the NBU

Balances due to the NBU are as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Term borrowings from the NBU	18,047	27,079
<b>Total due to the NBU</b>	<b>18,047</b>	<b>27,079</b>

As at 31 December 2016 term borrowings from the NBU bore interest rate from 14.25% to 29.25% per annum (2015: from 14.25% to 31.5% per annum).

The contractual maturity of the NBU refinancing loan tranches outstanding as at 31 December 2016 varied from May 2016 to August 2017 (31 December 2015: varied from January 2016 to April 2017). Included in the total amount due to the NBU was the past due amount of UAH 13,469 million (31 December 2015: UAH 16,720 million).

In April 2016, NBU refinancing loan tranches with carrying value of UAH 4,249 million as at 31 December 2016 were rescheduled from their original maturity in February and March 2015 to August 2017.

Assets pledged under the NBU refinancing loans are as follows:

<i>In millions of Ukrainian hryvnias</i>	Note	31 December 2016	31 December 2015
Mandatory reserve balance with the NBU	7	1,294	1,294
Loans and advances to customers	9	15,678	43,725
Premises	11	1,168	739
Investment properties		1,189	-
Repossessed collateral	13	15,294	-
<b>Total</b>		<b>34,623</b>	<b>45,758</b>

Refer to Note 27 for the disclosure of the fair value of amounts due to the NBU. Geographical, maturity and interest rate analysis is disclosed in Note 24.

## 14 Due to the NBU (Continued)

On 19 December and 22 December 2016 the Bank received short-term loans from the NBU of UAH 15,000 million and UAH 10,000 million respectively at contractual rate of 16% per annum maturing on 30 December 2016. As at 31 December 2016, the Bank repaid these short-term loans from the NBU.

In 2015, the Bank received UAH 9,700 million of refinancing loans from the National Bank of Ukraine.

## 15 Due to Banks and Financial Institutions

Balances due to banks and financial institutions are as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Term loans under the credit lines from financial institutions	2,040	1,672
Term placements of other commercial banks	565	2,402
Correspondent accounts and overnight placements of banks	61	551
Pledge deposits of banks	1	3
Total due to banks and financial institutions	2,667	4,628

Term placements of commercial banks represent placements in USD and EUR with maturities from January 2017 to September 2021 (31 December 2015: placements of commercial banks in USD and EUR with maturities from January 2016 to July 2020).

Refer to Note 27 for the disclosure of the fair value of each class of amounts due to banks and other financial institutions. Geographical, maturity and interest rate analysis is disclosed in Note 24.

## 16 Customer Accounts

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Individuals		
- Term deposits	119,519	108,381
- Current/demand accounts	31,684	30,658
Legal entities		
- Term deposits	14,677	16,608
- Current/settlement accounts	15,253	22,327
Total customer accounts	181,133	177,974

Economic sector concentrations within customer accounts are as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016		31 December 2015	
	Amount	%	Amount	%
Individuals	151,203	84	139,039	78
Trade	9,133	5	13,933	8
Services	6,620	4	6,856	4

Manufacturing	2,203	1	6,820	4
Agriculture	1,612	1	1,719	1
Machinery	308	-	651	-
Other	7,583	4	6,820	4
Total customer accounts	181,133	100	177,974	100

At 31 December 2016 the aggregate balances of top 10 customers of the Bank amounted to UAH 9,770 million (31 December 2015: UAH 12,552 million) or 5% (31 December 2015: 7%) of total customer accounts.

## 16 Customer Accounts (Continued)

At 31 December 2016 included in customer accounts were deposits of UAH 3,864 million (31 December 2015: UAH 1,268 million) held as collateral for loans and advances to customers with cash covered exposure of UAH 3,864 million (31 December 2015: UAH 1,268 million), issued by the Bank.

Fair value of each class of customer accounts is disclosed in Note 27. Geographical, maturity and interest rate analysis of customer accounts is disclosed in Note 24. Information on related party balances is disclosed in Note 29.

## 17 Provisions for Liabilities and Charges, Other Financial and Non-financial Liabilities

Provisions for liabilities and charges, other financial and non-financial liabilities comprise the following:

<i>In millions of Ukrainian hryvnias</i>	Note	31 December 2016	31 December 2015
<i>Other financial liabilities</i>			
Payables for contributions to Deposit Guarantee Fund		386	316
Deferred fees received		380	-
Provision for credit related commitments		247	56
Accounts payable		83	108
Funds in the course of settlement		67	52
Other		678	153
Total other financial liabilities		1,841	685
<i>Provision for liabilities and charges and other non-financial liabilities</i>			
Provision associated with cessation of operations in Crimea		1,299	700
Provision for taxes other than income tax		251	250
Taxes other than on income		260	330
Unused vacation accrual		204	175
Accrued salaries and bonuses		102	3
Provision for legal cases		36	21
Other		7	5
Total provisions for liabilities and charges and other non-financial liabilities		2,159	1,484
Total provisions for liabilities and charges, other financial and non-financial liabilities		4,000	2,169

Refer to Note 27 for the disclosure of the fair value of each class of other financial liabilities. Geographical, maturity and interest rate analyses of other financial liabilities are disclosed in Note 24.

## 18 Share Capital and Other Reserve Funds

<i>In millions of UAH except for number of shares</i>	Number of outstanding shares, in millions	Nominal amount
As at 1 January 2015	64.64	18,101
New shares issued	11.28	3,156
As at 31 December 2015	75.92	21,257
New shares issued	105.13	29,438
As at 31 December 2016	181.05	50,695

## 18 Share Capital and Other Reserve Funds (Continued)

The nominal registered amount of the Bank's issued share capital at 31 December 2016 was UAH 50,695 million (31 December 2015: UAH 21,257 million). The total authorised number of ordinary shares was 181.05 million shares (31 December 2015: 75.92 million shares) with a par value of UAH 280 per share (31 December 2015: UAH 280 per share). All issued ordinary shares are fully paid. Each ordinary share carries one vote.

As described in Note 1, at the nationalisation of the Bank, the DGF converted UAH 29,438 of liabilities to the Bank's share capital, including UAH 10,934 million of amounts due to customers UAH 10,721 million of Eurobonds issued and UAH 7,783 million of subordinated debt, and approved changes to the charter of the Bank increasing share capital of the Bank to UAH 50,695 million or 181.05 million of shares.

On 18 December 2016, the Cabinet of Ministers of Ukraine adopted a decision on the additional issue of the Bank's 417 million shares with par value of UAH 280 per share and total nominal value of UAH 116,800 million financed by government bonds.

On 29 December 2016, the Bank received a contribution of UAH 107,000 million to the share capital financed by government bonds. On that date, UAH 9,934 million of net gain on initial recognition of these bonds was recognised by the Bank in equity, under result on transactions with the owner. Refer to Note 10.

Subsequently to the reporting date, in February 2017, the Bank received a remaining contribution to the share capital financed by government bonds with a nominal value of UAH 9,800 million.

In June 2015 the Bank received USD denominated subordinated debt of UAH 1,694 million (USD 80 million at the exchange rate at the date of receipt) bearing 11% per annum with contractual maturity in June 2020. On 2 June 2016, this subordinated debt of UAH 2,008 was transferred to the equity following a consent of the creditor and an approval of the National Bank of Ukraine for early repayment of subordinated debt subject to further contribution of the same amount to equity

In August 2016, former Shareholders of the Bank approved decisions to transfer UAH 2,583 million from retained to the share capital. This transfer was not registered as at 31 December 2016. Subsequent to the reporting date, on 14 April 2017, the Ministry of Financial of Ukraine as a sole shareholder of the Bank cancelled this decision.

General reserves and other funds are established in accordance with the requirements of the Ukrainian legislation, amounted to UAH 1,619 million as at 31 December 2016 (2015: UAH 1,448 million). The Bank is required to establish reserve capital by transferring an amount from retained earnings to a non-distributable reserve. The amount to be transferred each year is calculated as the net profit for the preceding year before distribution of dividends attributable to ordinary shareholders of not less than 5% of current period profit until reserve capital will reach 25% of regulatory capital of the Bank.

During the reporting period, no financial instruments with a dilutive effect were outstanding. Therefore, basic earnings per share equal diluted earnings per share. Earnings per share amounts are calculated by dividing profit for the period attributable to owners of the Bank by the weighted average number of ordinary shares outstanding during the year.

<i>In millions of UAH except for number of shares</i>	2016	2015
(Loss)/profit for the period attributable to owners of the Bank	(176,238)	238
Weighted average number of ordinary shares in issue, in millions	79.00	70.57
Earnings per share, basic and diluted (expressed in UAH per share)	(2,230.86)	3.37

## 19 Interest Income and Expense

<i>In millions of Ukrainian hryvnias</i>	2016	2015
Interest income		
Loans and advances to legal entities	21,176	18,780

Due to the NBU	5,253	5,785
Term deposits of legal entities	2,964	2,336
Current/settlement accounts	2,434	1,897
Subordinated debt	1,138	702
Debt securities in issue and other borrowed funds	923	984
Due to banks and financial institutions	615	479
Total interest expense	29,364	27,861
Net interest income	3,891	2,779

Information on interest income and expense from transactions with related parties is disclosed in Note 29.

## 20 Fee and Commission Income and Expense

<i>In millions of Ukrainian hryvnias</i>	2016	2015
Fee and commission income		
Settlement transactions	6,577	4,264
Cash collection and cash transactions	3,484	2,174
Other	304	222
Total fee and commission income	10,365	6,660
Fee and commission expense		
Cash and settlement transactions	2,202	1,639
Other	3	1
Total fee and commission expense	2,205	1,640
Net fee and commission income	8,160	5,020

Information on fee and commission income from transactions with related parties is disclosed in Note 29.

## 21 Administrative and Other Operating Expenses

<i>In millions of Ukrainian hryvnias</i>	Note	2016	2015
Staff costs		3,477	3,170
Contributions to Deposit Guarantee Fund		1,468	1,178
Insurance expenses		675	153
Provision associated with Crimean liabilities		599	-
Mail and telecommunication		536	539
Rent		486	450
Depreciation and amortisation of premises, leasehold improvements and equipment and intangible assets	11	483	592
Maintenance of premises, leasehold improvements and equipment		457	400
Utilities and household expenses		405	359
Taxes other than on income		323	242
Professional services		281	97
Security		140	148
Transportation		115	109
Advertising and marketing		86	100
Provision for taxes payable other than on income		-	250
Other		375	633
Total administrative and other operating expenses		9,906	8,420

Included in staff costs was unified social contribution of UAH 607 million (2015: UAH 783 million). Social contributions are made into the State pension fund which is a defined contribution plan.

Insurance costs associated mainly with insurance collateral provided by the bank received credit security.

Information on administrative and other operating expenses from transactions with related parties is disclosed in Note 29.

## 22 Income Taxes

Income tax expense recorded in the profit or loss comprises the following:

<i>In millions of Ukrainian hryvnias</i>	2016	2015
Current tax	13	94
Deferred tax	(589)	58
Income tax (credit)/expense for the year	(576)	152

In 2016 the income tax rate applicable to the Bank's income was 18% (2015: 18%). Reconciliation between the theoretical and the actual taxation charge is provided below.

<i>In millions of Ukrainian hryvnias</i>	2016	2015
(Loss)/Profit before tax	(176,814)	390
Theoretical tax (credit)/expense at statutory rate (2016: 18%; 2015: 18%)	(31,828)	70
Tax effect of items which are not deductible or assessable for taxation purposes:		
- Income recognised for tax purposes only	5,198	-
- Non-deductible expenses	427	82
Unrecognised deferred tax assets	25,627	-
Income tax (credit)/expense for the year	(576)	152

## 22 Income Taxes (Continued)

Differences between IFRS and statutory taxation regulations in Ukraine and other countries give rise to certain temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their tax bases. The tax effect of the movements in these temporary differences is detailed below:

	31 December 2015	(Charged)/ credited to profit or loss	Credited directly to other comprehensive income	31 December 2016
<i>In millions of Ukrainian hryvnias</i>				
Tax effect of deductible temporary differences				
Provision and impairments	52	23,154	-	23,206
Tax loss carried forward	-	2,421	-	2,421
Gross deferred tax asset	52	25,575	-	25,627

Loans and advances, allowance for impairment	2,619	(2,567)	-	52
Net deferred tax liability	(743)	(54)	(136)	(933)

## 23 Segment Analysis

Operating segments are components that engage in business activities that may earn revenues or incur expenses, whose operating results are regularly reviewed by the chief operating decision maker (CODM), and for which discrete financial information is available. The CODM is the person - or group of persons - who allocates resources and assesses the performance for the entity. The functions of the CODM are performed by Management Board of the Bank.

## 23 Segment Analysis (Continued)

### *(a) Description of products and services from which each reportable segment derives its revenue*

The Bank is organised on the basis of four main business segments:

- Y Retail banking – representing private banking services, private customer current accounts, savings, deposits, investment savings products, custody, credit and debit cards, consumer loans and mortgages, derivative products.
- Y Corporate banking – representing direct debit facilities, current accounts, deposits, overdrafts, loan and other credit facilities, foreign currency and derivative products.
- Y Investment banking – representing financial instruments trading, structured financing, corporate leasing, merger and acquisitions advice.
- Y Treasury – representing interbank loans, deposits, foreign currency exchange operations, arrangement of funding in the international markets, asset and liabilities management, issue of senior bonds and assets backed securities, project financing, negotiation of limits for trade financing with financial institutions.

Transactions between the business segments are on normal commercial terms and conditions. Funds are ordinarily reallocated between segments, resulting in funding cost transfers disclosed in operating income. Interest charged for these funds is based on the Bank's cost of capital. There are no other material items of income or expense between the business segments. Segment assets and liabilities comprise operating assets and liabilities, being the majority of the balance sheet, but excluding taxation and head office overheads. Internal charges and transfer pricing adjustments have been reflected in the performance of each business segment.

### *(b) Factors that management used to identify the reportable segments*

The Bank's segments are strategic business units that focus on different customers. They are managed separately because each business unit requires different marketing strategies and service level.

Segment financial information reviewed by the CODM does not include information of the Bank's subsidiaries and head office functional departments. Regular review of these subsidiary banks is delegated to the local management teams. The CODM obtains financial statements of the Bank's subsidiaries. Management considered that information on subsidiary banks is available less frequently in concluding that segments exclude details of the subsidiaries. Head office functional departments do not earn revenues or earn revenues that are only incidental to the activities of the Bank and is not considered by the CODM as an operating segment.

### *(c) Measurement of operating segment profit or loss, assets and liabilities*

Starting from 2016, the CODM reviews segment information of the Bank prepared based on IFRS before consolidation of subsidiaries. Funds are generally reallocated between segments at internal interest rates set by the treasury department, which are determined by reference to market interest rate benchmarks, contractual maturities for loans and observed actual maturities of customer accounts balances. For each business segment the CODM reviews interest income adjusted for intersegment result (net interest on transactions with other segments). Income taxes are not allocated to segments.

In 2015 and prior years, the CODM reviewed segment information prepared based on internal accounting rules adjusted to meet the requirements of the NBU. Accordingly, a reconciliation to the Bank's IFRS financial statements was required.

## 23 Segment Analysis (Continued)

## (d) Information about reportable segment profit or loss, assets and liabilities

Segment information for the reportable segments for the year ended and at 31 December 2016 is set out below:

<i>In millions of Ukrainian hryvnias</i>	Retail banking	Corporate banking	Investment banking	Treasury	Total reportable segments

Reconciliation of reportable profit or loss for the year ended 31 December:

<i>In millions of Ukrainian hryvnias</i>	2015
Total reportable segment result	(3,325)
(a) Recognition of embedded derivatives	(5,198)
(c) Other adjustments	2,402
(d) Unallocated revenues	3,747
(e) Release of provision for impairment	2,764
Profit before tax	390

Reconciliation of reportable assets for the year ended 31 December:

<i>In millions of Ukrainian hryvnias</i>	2015
Total reportable segment assets	258,257
(a) Recognition of embedded derivatives	684
(c) Other adjustments	(217)
(d) Unallocated assets	1,119
(e) Provision for impairment	(289)
(f) Swap and spot operations at fair value	(358)
(g) Reclassifications	(585)
Total assets	258,611

Reconciliation of reportable liabilities for the year ended 31 December:

<i>In millions of Ukrainian hryvnias</i>	2015
Total reportable segment liabilities	230,679
(c) Other adjustments	166
(d) Unallocated liabilities	1,158
(f) Swap and spot operations at fair value	(479)
(g) Reclassifications	(584)
(h) Deferred income tax liability	161
Total liabilities	231,101

Reconciliation of material items of income for the year ended 31 December 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Interest income	Fee and commission income	Gains less losses from embedded derivatives
Total amount for all reportable segment	23,214	8,271	9,825
(a) Recognition of embedded derivatives	(2,280)	-	(3,254)
(c) Other adjustments	814	131	36
(d) Unallocated revenues	5,187	-	-
(g) Reclassifications	3,705	(1,742)	(90)
As reported under IFRS	30,640	6,660	6,517

## 23 Segment Analysis (Continued)

Reconciliation of material items of expense for the year ended 31 December 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Interest expense	Provision for impairment of loans and advances to customers	Administrative and other operating expenses
Total amount for all reportable segment	(28,038)	(8,911)	(6,164)
(c) Other adjustments	(71)	(661)	52
(d) Unallocated expenses	(6)	-	(2,040)
(e) Release of provision/(provision) for impairment	-	6,507	(25)
(g) Reclassifications	254	(626)	(243)
As reported under IFRS	(27,861)	(3,691)	(8,420)

Reconciliation of material assets as at 31 December 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Cash and cash equivalents and mandatory reserves	Due from banks	Loans and advances to customers	Embedded derivative assets	Other financial assets
Total amount for all reportable segment	31,803	1,507	177,934	-	42,298
(a) Recognition of embedded derivatives	-	-	29	30,673	(30,018)
(c) Other adjustments	-	-	(262)	-	-
(e) Provision for impairment	-	-	(289)	-	-
(f) Swap and spot operations at fair value	-	-	(357)	-	-
(g) Reclassifications	(2,619)	1,858	12,259	-	(12,042)
As reported under IFRS	29,184	3,365	189,314	30,673	238

Reconciliation of material liabilities at 31 December 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Due to banks and financial institutions	Customer accounts	Debt securities in issue	Provisions for liabilities and charges, other financial and non-financial liabilities	Subordinated debt
Total amount for all reportable segment	12,141	177,592	2	3,165	10,700
(c) Other adjustments	10	(38)	100	485	(9)
(f) Swap and spot operations at fair value	-	(478)	-	-	-
(g) Reclassifications	(7,523)	898	9,169	(1,481)	(1,644)
As reported under IFRS	4,628	177,974	9,271	2,169	9,047

The reconciling items are attributable to the following:

(a) – Embedded derivative financial assets under IFRS are recorded at fair value in the financial statements of separate line on statement of financial position.

(c) – Other different, mainly in presentation of assets and liabilities according to IFRS.

(d) – Unallocated balances, revenues and results represent amounts which relate to activities of head office functional departments and are not included in the reportable segments.

(e) – Adjustment of impairment provisions related to the differences between the estimates of the Bank and the results of the audit.

## 23 Segment Analysis (Continued)

(f) – The Bank presented swap and spot operations on a gross basis in its segment reporting prepared in accordance with the NBU rules.

(g) – Reclassifications are done based on the economic substance of transactions. The Bank presented debt securities issued separately in IFRS financial statements.

(h) – In Segment reporting the CODM did not analyse taxation.

The Bank did not analyse the capital expenditure, current and deferred income tax in segment reporting.

*(e) Analysis of revenues by products and services*

The Bank's revenues are analysed by products and services in Note 19 and Note 20.

*(f) Geographical information*

Revenues for each individual country for which the revenues are material are reported separately as follows for the year ended 31 December:

<i>In millions of Ukrainian hryvnias</i>	2016	2015
Ukraine	44,303	35,011
Other countries	791	2,536
Total revenues	45,094	37,547

The analysis is based on domicile of the customer. Revenues from off-shore companies of Ukrainian customers are reported as revenues from Ukraine. Revenues comprise interest income, fee and commission income and other operating income.

*(g) Major customers*

The Bank does not have customers which generate revenues exceeding 10% of the total revenue of the Bank.

## 24 Financial Risk Management

The risk management function within the Bank is carried out in respect of financial risks, operational risks and legal risks. Financial risk comprises market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures to minimise operational and legal risks. During the year 2016, the Bank reconsidered its risk management process and introduced certain changes in its risk management function, including but not limited to changes in responsibilities of specific divisions, stress-testing procedures, frequency of various reports, etc. These changes had no significant impact on the Bank's overall risk management function.

As discussed in Note 2 political and economic situation in Ukraine deteriorated since 2014. In response to this the Bank adopted number of changes in its risk management practices such as:

- more robust scoring process and additional stop-factors were introduced;
- decrease of lending limits on cards from UAH 15,000 to UAH 5,000;
- the Bank had stopped issuing loans and decreased loan limits for borrowers operating in areas that are not controlled by the Ukrainian authorities;
- the Bank had changed its legal entities lending process in order to reduce its exposure to certain industries; and
- the Bank ceased lending in Crimea in 2014.

## 24 Financial Risk Management (Continued)

### *Risk Management Bodies*

Risk management policy, monitoring and control are conducted by a number of bodies of the Bank under the supervision of the credit committee (the "Credit Committee"). Other bodies responsible for risk management within the Bank include the Treasury, Risk Management Division, Internal Control and Fraud-Management Division, the Finance and Risk Division. The Bank also has a system of internal controls which is supervised and monitored by its Internal Audit Division and Financial Monitoring Department. In addition, Compliance department monitors compliance of risk management process and function with regulatory and other legislative requirements.

### *Credit Committee*

The Credit Committee meets once a week and is responsible for setting credit policy, approving loans over the prescribed lending limits and the limits for counterparty banks, monitoring loan performance and the quality of the Bank's loan portfolio and reviewing large loan projects and the lending policies of the Bank's branches. The Credit Committee also monitors the interest rates set by the Bank's main competitors and the overall market situation and determines the Bank's pricing policy on the basis of the above. In addition, due to the importance of liquidity risk management, the Credit Committee is also responsible for decisions, which may have a significant impact on assets and liabilities, funding base and compliance with liquidity ratios.

### *Treasury*

The Treasury is responsible for day-to-day asset and liability management. The Treasury performs an analysis and controls the Bank's liquidity position and interest rate risk exposure based on instructions and guidelines from the Finance and Risk Division and its own assessments. The Treasury also monitors and controls compliance with respective regulatory and internal risk ratios set in accordance with regulatory and internal requirements.

### *Finance and Risk Division*

The Finance and Risk Division prepares daily reports on liquidity and interest risks, calculates and monitors respective ratios. The reports are accessible by the Treasury and other risk management function divisions. The Finance and Risk Division also develops detailed internal procedures and guidelines to manage these risks.

### *Risk-Management Division*

The Risk Management Division develops guidelines and policies for identification, assessment, measurement and control of credit risk, primarily in lending process, and regularly performs credit risk stress-testing. Also Risk Management Division sets limits for interbank transactions.

### *Internal Control and Fraud-Management Division*

The Internal Control and Fraud-Management Division reviews and checks the results of work performed by the divisions of the Bank and assists in formulating management decisions on enhancing transactional security and reducing risk based on data derived from this verification process. In particular, the Internal Control and Fraud-Management Division develops methodologies for detecting suspicious and fraudulent transactions and for reducing errors in statistical analysis of data from the Bank's accounting software and other sources, and verifies risk assumptions based on the results of such analyses.

*Credit risk.* The Bank takes on exposure to credit risk, which is the risk that one party to a financial contract will cause a financial loss for the other party by failing to discharge an obligation. Exposure to credit risk arises as a result of the Bank's lending and other transactions with counterparties giving rise to financial assets.

The general principles of the Bank's credit policy are outlined in the Bank's Credit Policy. The Bank's Credit Manual regulates all key steps in lending operations of the Bank and outlines procedures to analyse borrowers' financial position and collateral valuation. Also it sets requirements for loan documentation and procedures to monitor loan performance.

The Bank's maximum exposure to credit risk is reflected in the carrying amounts of financial assets on the statement of financial position. For guarantees and commitments to extend credit, the maximum exposure to credit risk is the amount of the commitment. Refer to Note 26. The credit risk is mitigated by collateral and other credit enhancements.

The Bank structures the levels of credit risk it undertakes by setting limits on the amount of risk accepted in relation to one borrower, or group of borrowers.

## 24 Financial Risk Management (Continued)

Such risks are monitored on a revolving basis and subject to an annual or more frequent review. Exposure to credit risk is managed through regular analysis of ability of borrowers and potential borrowers to meet interest and principal payment obligations and by changing lending limits where appropriate. Exposure to credit risk is also managed, in part, by obtaining collateral and corporate and personal guarantees. The Bank has a collateral policy in place, which includes a thorough review and assessment of collateral value.

Basic information on credit risk level, including reports on the loan portfolio and problem assets volume broken down by credit programme and manager is updated weekly and reviewed both as at the current date and over a period of time.

Credit Committee on a monthly basis reviews credit policies effectiveness for each business division and analysis information on the levels of non-performing loans.

### *Loan Approval Procedure*

The lending policies and credit approval procedures of the Bank are based on strict guidelines in accordance with the NBU regulations. The Bank also has detailed regulations for collateral assessment, which is conducted by the Bank's qualified internal appraisers.

The Bank sets lending authority limits to limit risks to the Bank arising from lending activities. Lending authority limits for senior managers of branches (comprising heads of branches, general and first deputy heads) are set twice per year by Risk-Management Division in the head office and approved by an order of the Bank together with proxies authorising the relevant heads to make lending decisions. The lending authority limit of a branch or sub-branch head depends on the amount of own funds of a branch or subbranch, overall rating of a branch or sub-branch and its integrated lending activity efficiency rating.

Lending authority limits for junior managers (heads of departments and divisions) are set by head of the relevant branch or sub-branch and apply to a particular individual.

If the amount of a loan does not exceed the lending authority limit of a head of a branch or subbranch, the decision on granting the loan is taken by the credit committee of the branch. If the amount exceeds this limit, lending authority limit may be granted from the head office in accordance with the Bank's credit procedures.

### *Off-Balance Sheet Policy*

Credit risk for off-balance sheet financial instruments is defined as a possibility of sustaining a loss as a result of another party to a financial contract failing to perform in accordance with the terms of the contract. Credit approval procedures, risk control limits and monitoring procedures for off-balance sheet financial instruments are established by the Bank.

### *Loan Monitoring*

The Bank's IT systems allow on-line monitoring of loans' performance by Management.

The Bank reassesses credit risk on each loan on an ongoing basis by (i) monitoring the financial and market position of a borrower and (ii) assessing the sufficiency of collateral. The financial and market position of a borrower is regularly reviewed and, on the basis of such review, an internal credit rating of a borrower may be revised. The review is based on the flow of funds into customer's accounts, its most recent financial statements and other business and financial information submitted by a borrower or otherwise obtained by the Bank.

The current market value of collateral is monitored regularly to assess its sufficiency with respect to a loan in question. The review of collateral is performed by independent appraisal companies or qualified internal appraisers. The frequency of such reviews depends on the type of collateral.

Management maintains individual records of a significant number of Ukrainian retail customers, which constitutes the largest credit history bureau in Ukraine, allowing the Bank to mitigate credit risks by targeting borrowers, who have a good credit history.

### *Problem Loan Recovery*

The Credit Committee has developed a systematic approach involving a comprehensive set of procedures intended to enable the Bank to achieve the highest level of repayment on nonperforming loans.

## 24 Financial Risk Management (Continued)

If a borrower does not perform its obligations under a loan agreement, it is the responsibility of the relevant credit officer to take initial actions to determine whether the cause of late payments is administrative or credit-related in nature. At this stage, credit officers contact the borrower, date to demand repayment. If such measures do not result in the repayment of the loan and the non-performance exceeds 90 days, the loan is classified as a "problem loan". The Risk-Management Division, which is responsible for identification of problem loans in the Bank, issues a banking order each month to transfer problem loans from the relevant credit unit's books to a specialised unit within Soft Collection, Credit Collection and Security Division.

Soft Collection, Credit Collection and Security Division are responsible for all loans issued by the Bank classified as "problem loans", excluding loans where the total debt amounts to less than UAH 1,000 (which continue to be processed by the monitoring unit). The Security Division obtains and reviews all documentation relating to the borrower, performs an official internal investigation to identify the reasons for the problem, draws up a plan of action for the repayment of the debt and reviews the collateral (which may entail organising protection). In a number of enforcement actions the Bank initiates court proceedings. The Security Division will often engage in negotiations with the borrower over a problem loan either concurrently with, or prior to, initiating court proceedings the collateral for sale at auction, to attach the borrower's account(s) with another bank or to take possession of property under a mortgage or transport facilities. If collateral is available, and upon satisfactory results of an analysis of whether the borrower is undergoing purely temporary business difficulties and of that borrower's willingness and capacity to repay its debt, negotiations usually aim at debt restructuring and include requirements to obtain additional collateral, personal guarantees by shareholders and management, increased interest rates and revised repayment schedules.

Other legal actions available to the Bank include executive proceedings for the enforcement of debt and bankruptcy proceedings. In the event of any criminal action on the part of the borrower, irrespective of the borrower's readiness to repay its debt, the Bank involves the relevant state authorities. The Credit Committee meets monthly to review the status of non-performing loans.

The Bank maintains a policy not to refinance problem loans without convincing evidence they will be repaid or reliably secured.

### *Related Party Lending*

The Bank conducts its business with related parties on commercial terms. Each loan request from a related party is subject to the same credit approval procedures as are applied to any other loan applicant.

*Market risk.* The Bank takes on exposure to market risks. Market risks arise from open positions in (a) currency, (b) interest rate and (c) equity products, all of which are exposed to general and specific market movements. Management sets limits on the value of risk that may be accepted, which is monitored on a daily basis. However, the use of this approach does not prevent losses outside of these limits in the event of more significant market movements.

*Currency risk.* Currency risk is the risk that the value of financial instruments owned by the Bank will fluctuate due to changes in foreign exchange rates. The Bank's major currency positions are in Ukrainian hryvnia, U.S. dollars and Euros. In respect of currency risk, Management sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily.

The Bank's policy in respect of open currency positions is restricted under Ukrainian law to certain thresholds and strictly monitored by the NBU on a daily basis. In order to hedge its currency risk, the Bank enters into arrangements with banks pursuant to which the Bank places term deposits with banks and accepts term deposits for the same term from the same counterparties banks in a different currency.

## 24 Financial Risk Management (Continued)

The table below summarises the Bank's exposure to foreign currency exchange rate risk at the end of the reporting period and position in Ukrainian hryvnias:

	As at 31 December 2016				As at 31 December 2015			
	Monetary financial assets	Monetary financial liabilities	Swaps, spots and forwards	Net balance and off- balance sheet position	Monetary financial assets	Monetary financial liabilities	Swaps, spots and forwards	Net balance and off- balance sheet position
<i>In millions of Ukrainian hryvnias</i>								
Ukrainian hryvnias	143,974	100,714	-	43,260	148,670	113,433	(281)	34,956
US Dollars	16,680	84,899	-	(68,219)	96,054	96,613	(4,846)	(5,405)
Euros	6,550	17,933	-	(11,383)	7,722	18,353	5,161	(5,470)
Other	630	266	-	364	508	280	-	228
Total	167,834	203,812	-	(35,978)	252,954	228,679	34	24,309

Fair value of embedded derivatives was included in the table above together with host instruments into UAH denominated financial assets.

The above analysis includes only monetary assets and liabilities. Investments in equities and non-monetary assets are not considered to give rise to any material currency risk.

The following table presents sensitivities of profit or loss for the period and equity to reasonably possible changes in exchange rates applied at the end of the reporting period relative to the functional currency of the respective Bank entities, with all other variables held constant:

<i>In millions of Ukrainian hryvnias</i>	As at 31 December 2016		As at 31 December 2015	
	Impact on profit or loss (before tax)	Impact on equity	Impact on profit or loss (before tax)	Impact on equity
US Dollar strengthening by 10% (2015: strengthening by 10%)	(6,587)	(6,587)	34	34
US Dollar weakening by 5% (2015: weakening by 5%)	3,294	3,294	449	449
Euro strengthening by 10% (2015: strengthening by 10%)	(1,138)	(1,138)	(547)	(547)
Euro weakening by 5% (2015: weakening by 5%)	569	569	274	274
Other strengthening by 5% (2015: strengthening by 5%)	18	18	11	11
Other weakening by 5% (2015: weakening by 5%)	(18)	(18)	(11)	(11)

The exposure was calculated only for monetary balances denominated in currencies other than the functional currency of the respective entity of the Bank. Sensitivity of US Dollar exchange rate in the above table takes into account effect of recognition of fair value of derivative embedded in loans issued to customers.

**Interest rate risk.** The Bank is exposed to the risk of financial losses as a result of possible changes in interest rates of financial instruments. Interest margins may increase due to such changes but may decrease or result in losses in the event that unexpected movements arise. Management sets limits on the acceptable level of mismatch of interest rates on financial assets and liabilities sensitive to interest rates, which is monitored regularly.

The Bank is exposed to interest rate risk, principally as a result of lending at fixed interest rates, in amounts and for periods, which differ from those of term borrowings at fixed interest rates. In practice, interest rates are generally fixed on a short-term basis. Also, interest rates that are contractually fixed on both assets and liabilities could be revised to reflect current market conditions.

## 24 Financial Risk Management (Continued)

The Finance and Risk Division and the Credit Committee are both responsible for interest rate risk management. The Finance and Risk Division establishes the principal policies and approaches to interest rate risk management and the Credit Committee conducts weekly monitoring and revision of interest rates for various currencies within certain time limits and product categories. Quarterly (or as required), the Financial and Risk Division conducts stress testing (simple sensitivity tests) to determine the Bank's exposure to possible losses and interest income sensitivity to them assuming rates fluctuation of 1%.

The Bank also regularly performs interest rate gaps analysis of financial assets and liabilities sensitive to interest rates. For this fixed interest rate assets and liabilities are arranged by remaining maturities, while assets and liabilities with a variable interest rate are arranged by the earliest repricing dates. The net sensitivity gap between assets and liabilities in a given time band represents the exposure sensitive to changes of market interest rates. The product of this difference and the presumed change of interest rates represents the approximate changes of net interest income. A negative net sensitivity gap in a given time band, which means that interest-bearing liabilities exceed interest-earning assets, represents a risk of a decline in net interest income in the event of increases in market interest rates. A positive net sensitivity gap in a given time band, which means that interest-bearing assets exceed interest-earning liabilities in that time band, represent a risk of a decline in net interest income in the event of a decline in market interest rates.

The table below summarises the Bank's exposure to interest rate risks. The table presents the aggregated amounts of the Bank's financial assets and liabilities at carrying amounts, categorised by the earliest of contractual interest repricing or maturity dates.

<i>In millions of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	More than 1 year	Non-monetary	Total
31 December 2016						
Total financial assets	33,665	2,630	6,610	124,929	433	168,267
Total financial liabilities	91,103	32,747	77,293	2,669	-	203,812
Net interest sensitivity gap at 31 December 2016	(57,438)	(30,117)	(70,683)	122,260	433	(35,545)
31 December 2015						
Total financial assets	42,738	25,080	121,515	63,660	2,166	255,159
Total financial liabilities	97,831	32,901	68,597	29,355	-	228,684
Net interest sensitivity gap at 31 December 2015	(55,093)	(7,821)	52,918	34,305	2,166	26,475

## 24 Financial Risk Management (Continued)

The Bank monitors interest rates for its financial instruments. The table below summarises interest rates based on reports reviewed by key management personnel:

In % p.a.	31 December 2016				31 December 2015			
	USD	UAH	Euro	Other	USD	UAH	Euro	Other
<b>Assets</b>								
Correspondent accounts and overnight deposits with banks	-	-	-	-	0	0	-	0
Correspondent accounts with Central Banks	-	-	-	-	-	0	0	-
Due from banks	-	-	-	-	0	0	0	0
Loans and advances to legal entities	4	11	11	5	9	16	11	5
Loans and advances to individuals	15	42	15	-	15	43	18	-
Investment securities available-for-sale	-	10	-	-	-	-	-	-
Debt investment securities held to maturity	-	-	-	-	-	-	-	-
<b>Liabilities</b>								
Due to the NBU	-	21	-	-	-	23	-	-
Correspondent accounts and overnight deposits of banks	10	5	6	-	14	0	9	0
Long-term loans under the credit lines from financial institutions	10	-	-	-	-	-	-	-
Term placements of banks	3	-	2	-	11	25	5	-
Customer accounts								
- current accounts of customers	0	5	0	-	2	7	1	-
- term deposits of legal entities	11	18	5	-	10	19	8	-
- term deposits of individuals	8	18	7	4	12	24	12	7
Debt securities in issue and other borrowed funds	-	15	-	-	11	15	-	-
Subordinated debt	-	9	-	-	10	9	-	-

The sign "-" in the table above means that the Bank does not have the respective assets or liabilities in the corresponding currency.

The Bank is exposed to prepayment risk through providing fixed or variable rate loans, including mortgages, which give the borrower the right to early repay the loans. The Bank's current period profit and equity at the end of the reporting period would not have been significantly impacted by changes in prepayment rates because such loans are carried at amortised cost and the prepayment right is at or close to the amortised cost of the loans and advances to customers.

## 24 Financial Risk Management (Continued)

*Geographical risk concentrations.* The geographical concentration of the Bank's financial assets and liabilities at 31 December 2016 is set out below:

<i>In millions of Ukrainian hryvnias</i>	Ukraine	OECD	Non OECD	Total
<b>Assets</b>				
Cash and cash equivalents and mandatory reserves	18,078	10,484	1,597	30,159
Due from banks	-	2,410	-	2,410
Loans and advances to customers	39,352	280	3,951	43,583
Embedded derivative assets	27,044	-	-	27,044
Investment in subsidiaries and associates	30	403	-	433
Investment securities available-for-sale	64,409	-	-	64,409
Other financial assets	46	118	65	229
<b>Total financial assets</b>	<b>148,959</b>	<b>13,695</b>	<b>5,613</b>	<b>168,267</b>
<b>Non-financial assets</b>	<b>23,056</b>	<b>53</b>	<b>13,807</b>	<b>36,916</b>
<b>Total assets</b>	<b>172,015</b>	<b>13,748</b>	<b>19,420</b>	<b>205,183</b>
<b>Liabilities</b>				
Due to the NBU	18,047	-	-	18,047
Due to banks and other financing institutions	44	2,605	18	2,667
Customer accounts	168,053	9,666	3,414	181,133
Debt securities in issue and other borrowed funds	2	-	-	2
Other financial liabilities	1,053	685	103	1,841
Subordinated debt	122	-	-	122
<b>Total financial liabilities</b>	<b>187,321</b>	<b>12,956</b>	<b>3,535</b>	<b>203,812</b>
<b>Non-financial liabilities</b>	<b>2,249</b>	<b>-</b>	<b>4</b>	<b>2,253</b>
<b>Total liabilities</b>	<b>189,570</b>	<b>12,956</b>	<b>3,539</b>	<b>206,065</b>
<b>Net balance sheet position</b>	<b>(17,555)</b>	<b>792</b>	<b>15,881</b>	<b>(882)</b>
<b>Credit related commitments (Note 26)</b>	<b>1,484</b>	<b>105</b>	<b>62</b>	<b>1,651</b>

Assets, liabilities and credit related commitments have been based on the country in which the counterparty is located. Cash on hand, precious metals and premises and equipment have been allocated based on the country in which they are physically held.

## 24 Financial Risk Management (Continued)

The geographical concentration of the Bank's assets and liabilities at 31 December 2015 is set out below:

<i>In millions of Ukrainian hryvnias</i>	Ukraine	OECD	Non OECD	Total
<b>Assets</b>				
Cash and cash equivalents and mandatory reserves	15,721	13,063	400	29,184
Due from banks	-	3,365	-	3,365

**Liquidity risk.** Liquidity risk is the Bank will be unable to meet its obligations. Liquidity risk arises from the mismatch of the Bank's financial assets and financial liabilities (including due to untimely performance of financial obligations by one or more counterparties of the Bank) and (or) emergence of unexpected necessity of immediate and simultaneous discharging by the Bank of its financial obligations. Liquidity risk is managed by the Treasury of the Bank.

The Bank's liquidity management includes maintenance of such level of liquid assets as necessary to settle obligations when they fall due; maintenance of access to a range of funding sources and funding contingency plans; and monitoring liquidity ratios against regulatory requirements. The Bank seeks to maintain a stable funding base and develop sources of resources primarily consisting of amounts due to corporate and retail customers. The Treasury accumulates an adequate portfolio of short-term liquid assets, largely made up of correspondent accounts, overnights placements and deposits with other banks and other inter-bank facilities, to ensure that sufficient liquidity is maintained.

## 24 Financial Risk Management (Continued)

The Bank calculates regulatory liquidity ratios set by the National Bank of Ukraine on a daily basis. These ratios are:

- Instant liquidity ratio (N4), which is calculated as the ratio of highly-liquid assets to liabilities payable on demand. The ratio was 63,52% at 31 December 2016 (31 December 2015: 56,87%) with the minimum required limit of 30% for saving banks and 20% for other banks (31 December 2015: 30% for saving banks and 20% for other banks).
- Current liquidity ratio (N5), which is calculated as the ratio of liquid assets to liabilities maturing within 31 calendar days. The ratio was 147,43% at 31 December 2016 (31 December 2015: 59,88%) with the minimum required limit of 40% (31 December 2015: 40%).
- Short-term liquidity ratio (N6), which is calculated as the ratio of liquid assets to liabilities with original maturity of up to one year. The ratio was 73,83% at 31 December 2016 (31 December 2015: 97,09%) with the minimum required limit of 60% (31 December 2015: 60%).

The liquidity risk reports are used by the Treasury to manage liquidity on a day-to-day basis.

Head of the Treasury is responsible for decisions to manage current liquidity. The Treasury reviews payment schedules by-weekly and manages liquidity position real-time by selling investment securities, placing or attracting short-term resources at interbank market or through other available financial facilities. The Treasury also analyses the possible consequences of the withdrawal of a large amount of funds by major customers to minimise unexpected changes in funding requirements. Responsible divisions coordinate changes in scheduled payments with the customers if required. The Treasury ensures compliance with the mandatory reserve requirement and the regulatory liquidity ratios. The Credit Committee reviews liquidity risk reports to control the decisions.

The Bank also has a liquidity crisis plan in place, which includes early warning indicators and a step-by-step procedures in the event of unexpected liquidity emergencies for the divisions of the Bank as well as for their coordination. The Finance and Risk Division also regularly conducts liquidity stress-testing under normal or more severe market conditions scenarios.

The table below shows liabilities at 31 December 2016 by their remaining contractual maturity. The amounts disclosed in the maturity table are the contractual undiscounted cash flows, including and gross loan commitments. Such undiscounted cash flows differ from the amount included in the separate statement of financial position because amounts disclosed in statement of financial position are based on discounted cash flows.

When the amount payable is not fixed, the amount disclosed is determined by reference to the conditions existing at the reporting date. Foreign currency payments are translated using the spot exchange rate at the end of the reporting period.

The maturity analysis of financial liabilities at 31 December 2016 is as follows:

	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 12 months to 5 years	Over 5 years	Total
<i>In millions of Ukrainian hryvnias</i>						
Liabilities						
Due to the NBU	14,589	1,319	2,689	-	-	18,597
Due to banks and other financing institutions	137	90	2,375	252	-	2,854
Customer accounts	78,601	32,775	72,869	3,049	64	187,358

Credit related commitments and financial guarantees, gross (Note 26)	2,654	-	-	-	-	2,654

## 24 Financial Risk Management (Continued)

The maturity analysis of financial liabilities at 31 December 2015 is as follows:

	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 12 months to 5 years	Over 5 years	Total
<i>In millions of Ukrainian hryvnias</i>						
Liabilities						
Due to the NBU	18,622	2,031	7,369	802	-	28,824
Due to banks and other financing institutions	1,321	139	1,278	1,157	1,736	5,631
Customer accounts	77,706	34,547	64,147	10,499	2	186,901
Debt securities in issue and other borrowed funds	-	469	1,417	9,419	-	11,305
Subordinated debt	53	243	533	8,389	3,719	12,937
Other financial liabilities	664	18	3	-	-	685
Gross settled swaps, spots and forwards	8,305	-	-	-	-	8,305
Total contractual future payments for financial obligations	106,671	37,447	74,747	30,266	5,457	254,588
Credit related commitments and financial guarantees, gross (Note 26)	2,247	-	-	-	-	2,247

Customer accounts are classified in the above analysis based on contractual maturities.

## 24 Financial Risk Management (Continued)

The Bank does not use the above undiscounted maturity analysis to manage liquidity. Instead, the Bank monitors expected maturities, which may be summarised as follows at 31 December 2016:

<i>In millions of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	Over 1 year	No stated maturity	Total
<b>Assets</b>						
Cash and cash equivalents and mandatory reserves	30,159	-	-	-	-	30,159
Due from banks	564	1,080	766	-	-	2,410
Loans and advances to customers	10,820	6,483	17,796	8,484	-	43,583
Embedded derivative assets	-	-	-	27,044	-	27,044
Investment securities available-for-sale	1	12	38	64,358	-	64,409
Investment securities held to maturity	-	-	-	-	-	-

<b>Total financial liabilities</b>	<b>67,759</b>	<b>42,845</b>	<b>89,763</b>	<b>3,445</b>	<b>-</b>	<b>203,810</b>
<b>Net liquidity gap at 31 December 2016</b>	<b>(25,994)</b>	<b>(35,270)</b>	<b>(71,160)</b>	<b>96,446</b>	<b>433</b>	<b>(35,545)</b>
<b>Cumulative liquidity gap at 31 December 2016</b>	<b>(25,994)</b>	<b>(61,264)</b>	<b>(132,424)</b>	<b>(35,978)</b>	<b>(35,545)</b>	
<b>Credit related commitments and financial guarantees (Note 26)</b>	<b>1,651</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>1,651</b>

In accordance with effective legislation, the Bank is obliged to repay term deposits of individuals on demand of a depositor if early repayment option is set contractually, but in this case a depositor's right to accrued interest is forfeited. The Bank expects that customers will not request term deposits early, thus these balances are included in disclosures above in accordance with their contractual maturities. Current accounts are included on their historical stability assessed on a quarterly average basis, which the Bank expects to continue with no significant changes.

As at 31 December 2016, on demand and less than in one month amounts due to the NBU included a past due amount of refinancing loans of UAH 13,469 million (2015: UAH 16,720 million). The NBU did not demand these refinancing loans for immediate repayment at the date of these separate financial statements.

## 24 Financial Risk Management (Continued)

The analysis by expected maturities may be summarised as follows at 31 December 2015:

<i>In millions of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	Over 1 year	No stated maturity	Total
<b>Assets</b>						
Cash and cash equivalents and mandatory reserves	29,184	-	-	-	-	29,184
Due from banks	1,980	424	961	-	-	3,365
Loans and advances to customers	17,378	20,180	92,439	59,317	-	189,314
Embedded derivative assets	201	1,518	23,476	5,478	-	30,673
Investment securities available-for-sale	1	-	-	-	1,733	1,734
Investment securities held to maturity	-	-	-	216	-	216
Investment in subsidiaries and associates	-	-	-	-	435	435
Other financial assets	195	-	-	43	-	238
<b>Total financial assets</b>	<b>48,939</b>	<b>22,122</b>	<b>116,876</b>	<b>65,054</b>	<b>2,168</b>	<b>255,159</b>
<b>Liabilities</b>						
Due to the NBU	18,101	1,679	6,534	765	-	27,079
Due to banks and other financial institutions	1,308	117	1,174	2,029	-	4,628
Customer accounts	53,788	41,589	72,719	9,878	-	177,974
Debt securities in issue and other borrowed funds	-	286	938	8,047	-	9,271
Other financial liabilities	664	18	3	-	-	685
Subordinated debt	26	117	-	8,904	-	9,047
<b>Total financial liabilities</b>	<b>73,887</b>	<b>43,806</b>	<b>81,368</b>	<b>29,623</b>	<b>-</b>	<b>228,684</b>
<b>Net liquidity gap at 31 December 2015</b>	<b>(24,948)</b>	<b>(21,684)</b>	<b>35,508</b>	<b>35,431</b>	<b>2,168</b>	<b>26,475</b>
<b>Cumulative liquidity gap at 31 December 2015</b>	<b>(24,948)</b>	<b>(46,632)</b>	<b>(11,124)</b>	<b>24,307</b>	<b>26,475</b>	
<b>Credit related commitments and financial guarantees (Note 26)</b>	<b>2,130</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>2,130</b>

The matching and/or controlled mismatching of the maturities and interest rates of assets and liabilities is fundamental to the management of the Bank. It is unusual for banks ever to be completely matched since business transacted is often of an uncertain term and of different types. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature, are important factors in assessing the liquidity of the Bank and its exposure to changes in interest and exchange rates.

Management believes that despite of the substantial portion of customer accounts being on demand, diversification of these deposits by number and type of depositors, and the past experience of the Bank would indicate that these customer accounts provide a long-term and stable source of funding for the Bank.

Liquidity requirements to support calls under guarantees and standby letters of credit are considerably less than the amount of the commitment because the Bank does not generally expect the third party to draw funds under the agreement. The total outstanding contractual amount of commitments to extend credit does not necessarily represent future cash requirements, since many of these commitments will expire or terminate without being funded.

## 25 Management of Capital

Compliance with capital adequacy ratios set by the National Bank of Ukraine is monitored monthly with reports outlining their calculation reviewed and signed by the Chairman of the Board and Chief Accountant. Other objectives of capital management are evaluated annually. Under the current capital requirements set by the National Bank of Ukraine banks have to maintain a ratio of regulatory capital to risk weighted assets ("statutory capital ratio") above a prescribed minimum level.

a) The Bank also manages its capital, including capital adequacy levels calculated in accordance with the requirements of the Basel Accord, as defined in the International Convergence of Capital Measurement and Capital Standards (updated April 1998) and Amendment to the Capital Accord to incorporate market risks (updated November 2005), commonly known as Basel I. The composition of the Bank's capital calculated in accordance with Basel Accord is as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Tier 1 capital	(2,589)	25,565
Tier 2 capital (a portion not exceeding 100% of Tier 1)	-	8,988
<b>Total capital</b>	<b>(2,589)</b>	<b>34,553</b>
<b>Risk Weighted Assets</b>		
Banking book	105,306	227,114
Trading book	79,603	10,876
<b>Risk Weighted Assets</b>	<b>184,909</b>	<b>237,990</b>
<b>Tier 1 capital ratio</b>	<b>(1.40%)</b>	<b>10.74%</b>
<b>Capital adequacy ratio (%)</b>	<b>(1.40%)</b>	<b>14.52%</b>

b) As at 31 December 2016, the National Bank of Ukraine required banks to maintain a capital adequacy ratio of at least 10% of risk weighted assets calculated in accordance with the regulations of the National Bank of Ukraine (31 December 2015: at least 10%).

Regulatory capital in accordance with the NBU's regulations comprises:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Adjusted net assets	3,515	18,247
Add: Subordinated debt	54	7,740
Less: Investments in subsidiaries and associates	(433)	(435)
<b>Total regulatory capital</b>	<b>3,136</b>	<b>25,552</b>
<b>Risk weighted assets</b>	<b>126,308</b>	<b>236,087</b>
<b>Open foreign currency position</b>	<b>23,154</b>	<b>2,808</b>
<b>Capital adequacy ratio (N2)</b>	<b>2.10%</b>	<b>10.70%</b>

Net assets included in the table above are adjusted according to the NBU regulations, including the adjustment relating to the calculation of provision for loans and advances to customers in accordance with Regulation No. 23 of the Board of the National Bank of Ukraine dated 25 January 2012 "On Calculation of the Loan Loss Provision by Ukrainian Banks" ("Regulation No. 23").

## 26 Contingencies and Commitments

*Legal proceedings.* From time to time and in the normal course of business, claims against the Bank are received. As at 31 December 2016, provision of UAH 36 million has been recorded for potential legal liabilities (31 December 2015: UAH 21 million). For the provision associated with loss of control over its business in Crimea refer to Note 4.

As disclosed in Note 1, at the nationalisation of the Bank, the DGF has converted UAH 10,934 million of amounts due to customers, UAH 10,721 million of Eurobonds issued and UAH 7,783 million of subordinated debt into the Bank's share capital. At the date of these separate financial statements, USD 279 million and UAH 1,579 million and EUR 3 million of claims (UAH 9,043 million at exchange rate as at the date of these financial statements) were filed against the Bank in respect of some of these liabilities. The ultimate outcome can not be determined. Consequently, the Bank did not recognise any provision for these claims.

*Tax legislation.* Ukrainian tax and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Bank may be challenged by the relevant authorities.

The Ukrainian tax authorities may be taking a more assertive and sophisticated approach in their interpretation of the legislation and tax examinations. Combined with a possible increase in tax collection efforts to respond to budget pressures, the above may lead to an increase in the level and frequency of scrutiny by the tax authorities and it is possible that transactions and activities that have not been challenged in the past may be challenged.

Ukrainian tax legislation does not provide definitive guidance in certain areas. From time to time, the Bank adopts interpretations of such uncertain areas that reduce the overall tax rate of the Bank. As noted above, such tax positions may come under heightened scrutiny. The impact of any challenge by the tax authorities cannot be reliably estimated; however, it may be significant to the financial condition and/or the overall operations of the Bank.

Management further believes that ascertained risks of possible outflow of resources arising from tax and other regulatory compliance matters in the periods preceding 31 December 2016 do not exceed UAH 2,409 million.

*Capital expenditure commitments.* At 31 December 2016 the Bank had contractual capital expenditure commitments in respect of construction of premises and acquisition of computers and furniture and equipment totalling UAH 22 million (31 December 2015: UAH 56 million). The Bank believes that future net income and funding will be sufficient to cover this and any similar such commitments.

*Operating lease commitments.* As at 31 December 2016 and 2015 the Bank had no commitments under non-cancellable operating leases.

*Compliance with covenants.* The Bank is also subject to certain covenants related to refinancing loans obtained from the NBU. As at 31 December 2016, the Bank was not in compliance with capital adequacy ratio, maximum credit exposure to a single borrower long open currency position and short open currency position ratios as well as other non-financial restrictions prescribed by the loan agreements with the NBU.

In 2015 and 2016, the NBU performed its reviews of the Bank's compliance with refinancing loan's covenants and did not request early repayment of the loans. Refer to Note 4.

*Contingent liabilities.* As at 31 December 2016, the Bank had a contingent liability of UAH 6,916 million relating to cessation of its operations in Crimea, being the outstanding amount of customer accounts in Crimea at discontinuance of operations (i.e. as of November 2014) less amount claimed and provisioned. Refer to Note 4. It is not probable that outflow of resources will be required to settle these obligations originated in Crimea and the amount of such obligations cannot be measured reliably by the Bank.

*Credit related commitments.* The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit, which represent irrevocable assurances that the Bank will make payments in the event that a customer cannot meet its obligations to third parties, carry the same credit risk as loans. Documentary and commercial letters of credit, which are written undertakings by the Bank on behalf of a customer authorising a third party to draw drafts on the Bank up to a stipulated amount under specific terms and conditions, are collateralised by the underlying shipments of goods to which they relate or cash deposits and therefore carry less risk than a direct borrowing.

## 26 Contingencies and Commitments (Continued)

Commitments to extend credit represent unused portions of authorisations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit, the Bank is potentially exposed to loss in an amount equal to the total unused commitments, if the unused amounts were to be drawn down. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Bank monitors the term to maturity of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments. Outstanding credit related commitments are as follows:

<i>In millions of Ukrainian hryvnias</i>	Note	31 December 2016	31 December 2015
Guarantees issued		1,772	1,421
Import letters of credit		588	609
Irrevocable commitments to extend credit		294	217
Less: Cash covered letters of credit		(756)	(61)
Less: Provision for credit related commitments	17	(247)	(56)
Total credit related commitments and financial guarantees		1,651	2,130

The total outstanding contractual amount of undrawn credit lines, letters of credit, and guarantees does not necessarily represent future cash requirements, as these financial instruments may expire or terminate without being funded. The fair value of credit related commitments as at 31 December 2016 and 2015 was insignificant.

As at 31 December 2016, irrevocable commitments under letters of credit and guarantees issued by the Bank of gross amount UAH 756 million (31 December 2015: UAH 61 million) were secured by customer accounts of UAH 756 million (31 December 2015: UAH 61 million).

Credit related commitments are denominated in currencies as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016	31 December 2015
Ukrainian Hryvnias	1,112	848
US Dollars	215	909
Euro	139	188
Other currencies	185	185
Total	1,651	2,130

As at 31 December 2016, the Bank had undrawn credit limits on credit cards of UAH 20,264 million (31 December 2015: UAH 19,295 million) that were available to credit cardholders. These credit limits are revocable. The Bank on a regular basis monitors activity on the cards and based on the frequency and pattern of withdrawals and repayments done by borrowers is able to reduce limits on credit cards unilaterally. Provision for undrawn credit limits on credit cards was not significant as at 31 December 2016 and 2015.

*Fiduciary assets.* These assets are not included in the Bank's statement of financial position as they are not assets of the Bank. Nominal values disclosed below are normally different from the fair values of respective securities. The fiduciary assets held by the Bank on behalf of its customers fall into the following categories:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016 Nominal value	31 December 2015 Nominal value
Shares of Ukrainian companies	4,822	6,512
Domestic corporate bonds	717	834
Investment certificates	319	283

## 26 Contingencies and Commitments (Continued)

*Financial agency arrangements for customers*

In 2016, the Bank introduced a new service for existing retail customers holding card accounts with the Bank. The Bank provided intermediary agent services (processing and advisory services) for peer-to-peer (P2P) lending (payments) for a fee. As all risks and rewards resided with third parties— investors, investees and insurance companies, the Bank recognised no assets and liabilities on these transactions, except for fee amounts related to the Bank's involvement. As at 31 December 2016 the outstanding balance due to investors by investees under P2P lending comprised UAH 4,462 million.

New management of the Bank appointed in December, 2016 made a decision to change terms of these services. Subsequent to the reporting date, all existing contracts with customers were amended in a way that the Bank has become a primary party bearing key risks and rewards for financing and investing within P2P lending arrangements. Thus at the date of modification of arrangements the Bank recorded related amounts at its statement of financial position. At the date of these financial statements, the Bank recorded UAH 2,968 million due to customers and UAH 4,015 million of loans and advances to customers originated through the P2P lending arrangements.

*Assets pledged and restricted.* The Bank had assets pledged as collateral with the following carrying value:

In millions of Ukrainian hryvnias	Note	31 December 2016		31 December 2015	
		Asset pledged and restricted	Related liability/ commitment	Asset pledged and restricted	Related liability/ commitment
Gross receivables under swap, forward and spot agreements		-	-	8,339	8,305
Mandatory reserve balances with the NBU, premises, investment properties, repossessed collateral and loans and advances to customers (2015: mandatory reserve balances with the NBU, premises and loans and advances to customers)	7, 9, 11, 13, 14	34,623	18,047	45,758	27,079
Total		34,623	18,047	54,097	35,384

Gross receivables under swap, forward and spot agreements presented above were recognised on a net basis in the statement of financial position, giving rise to a derivative financial asset or liability within other financial assets or other financial liabilities, respectively.

The mandatory reserve balance and blocked amounts of UAH 1,486 million (31 December 2015: UAH 168 million) are excluded from cash and cash equivalents and represent mandatory reserve deposits which are not available to finance the Bank's day to day operations as disclosed in Note 7.

As disclosed in Note 8, balances due from banks of UAH 2,410 million (31 December 2015: UAH 1,509 million) have been pledged as cover for letters of credit and international payments.

## 27 Fair Value of Financial Instruments

Fair value measurements are analysed by level in the fair value hierarchy as follows: (i) level one are measurements at quoted prices (unadjusted) in active markets for identical assets or liabilities, (ii) level two measurements are valuations techniques with all material inputs observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and (iii) level three measurements are valuations not based on observable market data (that is, unobservable inputs). Management applies judgement in categorising financial instruments using the fair value hierarchy. If a fair value measurement uses observable inputs that require significant adjustment, that measurement is a Level 3 measurement. The significance of a valuation input is assessed against the fair value measurement in its entirety.

## 27 Fair Value of Financial Instruments (Continued)

## (a) Recurring fair value measurements.

Recurring fair value measurements are those that the accounting standards require or permit in the statement of financial position at the end of each reporting period. The levels in the fair value hierarchy into which the recurring fair value measurements are categorised as follows:

In millions of Ukrainian hryvnias	31 December 2016				31 December 2015			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
<b>FINANCIAL ASSETS AT FAIR VALUE</b>								
<i>Investment securities available-for-sale</i>								
Unquoted shares	-	1	-	1	-	1,734	-	1,734
Long-term government debt securities with an embedded option	-	-	47,046	47,046	-	-	-	-
Long-term government debt securities without an embedded option	-	-	17,363	17,363	-	-	-	-
<i>Embedded derivative assets</i>	-	-	27,044	27,044	-	-	30,673	30,673
<i>Other financial assets</i>								
Financial derivatives arising from swap, forward and spot transactions	-	-	-	-	-	-	39	39
<b>NON-FINANCIAL ASSETS</b>								
Premises, leasehold improvements, equipment and intangible assets	-	-	2,062	2,062	-	-	1,289	1,289
Reposessed collateral	-	-	21,836	21,836	-	-	-	-
Investment properties	-	-	1,358	1,358	-	-	-	-
<b>TOTAL ASSETS RECCURING FAIR VALUE MEASUREMENT</b>	-	1	116,709	116,710	-	1,734	32,001	33,735
<b>FINANCIAL LIABILITIES AT FAIR VALUE</b>								
<i>Other financial liabilities</i>								
Financial derivatives arising from swap, forward and spot transactions	-	-	-	-	-	-	5	5
<b>TOTAL LIABILITIES RECCURING FAIR VALUE MEASUREMENTS</b>	-	-	-	-	-	-	5	5

Valuation technique used for level 2 measurements is linked to market prices of quoted shares of the same companies on active market.

Valuation technique used for level 3 measurements included discounted cash flows and other appropriate valuation techniques (models). Embedded derivative assets and investment securities available-for-sale are classified into level 3 instruments because these instruments require management to make assumptions for certain adjustments which had significant impact on fair values - exchange rates volatility, discount rates and/ or a credit risk of the counterparties which are not fully supportable by observable market data.

## 27 Fair Value of Financial Instruments (Continued)

*Movements in level 3 financial instruments measured at fair value*

A reconciliation of movements in Level 3 of the fair value hierarchy of the embedded derivative assets for the year ended 31 December 2016 and 2015 is as follows:

<i>In millions of Ukrainian hryvnias</i>	Embedded derivative assets	Investment securities available- for-sale	Embedded derivative liabilities
Fair value at 1 January 2015	19,978	-	(10,047)
Initial recognition of derivative recorded as adjustment to the amounts of loans and advances to customers	2,029	-	-
<i>Total gains (losses) recorded in profit or loss:</i>			
Gains less losses from embedded derivative assets	9,671	-	(3,154)
<i>Settlements:</i>			
Cash (received)/paid	(1,005)	-	13,201
Fair value as at 31 December 2015	30,673	-	-
Initial recognition of derivative recorded as adjustment to the amounts of loans and advances to customers	1,086	-	-
Investment securities available-for-sale received as a contribution into the share capital	-	107,000	-
<i>Total gains (losses) recorded in :</i>			
- <i>directly in equity :</i>			
Initial recognition	27,296	(17,362)	-
Revaluation of investment securities available-for-sale	-	520	-
- <i>profit or loss:</i>			
Interest income accrued on investment securities available-for-sale	-	51	-
Losses less gains from embedded derivative assets	(23,955)	-	-
<i>Settlements:</i>			
Cash received	(953)	(25,800)	-
Embedded derivative settled with repossessed collateral	(7,103)	-	-
Fair value as at 31 December 2016	27,044	64,409	-

## 27 Fair Value of Financial Instruments (Continued)

## (b) Assets and liabilities not measured at fair value but for which fair value is disclosed

Fair values analysed by level in the fair value hierarchy and carrying value of assets not measured at fair value are as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016				31 December 2015			
	Level 1	Level 2	Level 3	Carrying value	Level 1	Level 2	Level 3	Carrying value
<b>FINANCIAL ASSETS</b>								
<i>Due from banks</i>								
Guarantee deposits with banks	-	-	2,410	2,410	-	-	3,365	3,365
<i>Loans and advances to customers</i>								
Corporate loans	-	-	8,826	9,320	-	-	158,463	163,070
Loans to individuals - cards	-	-	15,830	15,830	-	-	17,503	17,502
Loans to individuals - mortgage	-	-	1,944	2,011	-	-	5,238	5,299
Loans to individuals - auto	-	-	16	13	-	-	39	36
Loans to individuals - consumer	-	-	961	961	-	-	543	539
Loans to individuals - other	-	-	361	351	-	-	1,008	1,012
Loans to small and medium enterprises (SME)	-	-	868	902	-	-	1,278	1,335
Finance lease receivables	-	-	14,195	14,195	-	-	537	521
<i>Investments in subsidiaries and associates</i>	-	-	507	433	-	-	435	435
<i>Investment securities held to maturity</i>								
Corporate bonds	-	-	-	-	216	-	-	216
<i>Other financial assets</i>								
Receivables from operations with customers	-	-	161	161	-	-	31	31
Other	-	-	68	68	-	-	168	168
<b>TOTAL</b>	-	-	46,147	46,655	216	-	188,608	193,529

Fair value of cash and cash equivalents approximates their carrying value.

## 27 Fair Value of Financial Instruments (Continued)

Fair values analysed by level in the fair value hierarchy and carrying value of liabilities not measured at fair value are as follows:

<i>In millions of Ukrainian hryvnias</i>	31 December 2016				31 December 2015			
	Level 1	Level 2	Level 3	Carrying value	Level 1	Level 2	Level 3	Carrying value
<b>FINANCIAL LIABILITIES</b>								
<i>Due to the NBU</i>								
Due to the NBU	-	18,047	-	18,047	-	27,079	-	27,079
<i>Due to banks and other financing institutions</i>								
Term placements of banks	-	-	565	565	-	-	2,341	2,402
Long-term loans under the credit lines from other financing institutions	-	-	2,040	2,040	-	-	1,673	1,672
Correspondent accounts and overnight placements of banks	-	61	-	61	-	551	-	551
Pledge deposits of banks	-	-	1	1	-	-	3	3
<i>Customer accounts</i>								
Term deposits of individuals	-	-	119,749	119,519	-	-	109,347	108,381
Current/demand accounts of individuals	-	31,684	-	31,684	-	30,658	-	30,658
Current/settlement accounts of legal entities	-	15,253	-	15,253	-	22,327	-	22,327
Term deposits of legal entities	-	-	14,867	14,677	-	-	17,277	16,608
<i>Debt securities in issue and other borrowed funds</i>								
Other borrowed funds	-	-	-	2	-	-	6,371	9,271
<i>Other financial liabilities</i>								
Funds in the course of settlement	-	-	67	67	-	-	52	52
Accounts payable	-	-	83	83	-	-	108	108
Other	-	-	1,691	1,691	-	-	519	520
<i>Subordinated debt</i>								
Subordinated debt	-	-	122	122	-	3,222	3,882	9,047
<b>TOTAL</b>	-	65,045	139,185	203,812	-	83,837	141,573	228,679

The fair values in level 2 and level 3 of fair value hierarchy were estimated using the discounted cash flows valuation technique and market prices of quoted notes on non-active market. The fair value of floating rate instruments that are not quoted in an active market was estimated to be equal to their carrying amount. The fair value of unquoted fixed interest rate instruments was estimated based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity.

For assets, the Bank used assumptions about counterparty's incremental borrowing rate and prepayment rates. Liabilities were discounted at the Bank's own incremental borrowing rate. Liabilities due on demand were discounted from the first date that the amount could be required to be paid by the Bank.

The Bank's liabilities to its customers are subject to state deposit insurance plan as described in Note 1. The fair value of these liabilities reflects these credit enhancements.

## 28 Presentation of Financial Instruments by Measurement Category

For the purposes of measurement, IAS 39, *Financial Instruments: Recognition and Measurement*, classifies financial assets into the following categories: (a) loans and receivables; (b) available-for-sale financial assets; (c) financial assets held to maturity and (d) financial assets at fair value through profit or loss ("FVTPL"). Financial assets at fair value through profit or loss have two subcategories: (i) assets designated as such upon initial recognition, and (ii) those classified as held for trading. In addition, finance lease receivables form a separate category.

The following table provides a reconciliation of financial assets with these measurement categories as at 31 December 2016:

<i>In millions of Ukrainian hryvnias</i>	Loans and receivables	Available-for-sale assets	Assets at FVTPL held for trading	Held to maturity	Finance lease receivables	Total
<b>ASSETS</b>						
Cash and cash equivalents and mandatory reserves	30,159	-	-	-	-	30,159
Due from banks						
Guarantee deposits with banks	2,410	-	-	-	-	2,410
Loans and advances to customers						
Corporate loans	9,320	-	-	-	-	9,320
Loans to individuals – cards	15,830	-	-	-	-	15,830
Loans to individuals – mortgage	2,011	-	-	-	-	2,011
Loans to individuals – auto	13	-	-	-	-	13
Loans to individuals – consumer	961	-	-	-	-	961
Loans to individuals – other	351	-	-	-	-	351
Loans to small and medium enterprises (SME)	902	-	-	-	-	902
Finance lease receivables	-	-	-	-	14,195	14,195
Embedded derivative assets	-	-	27,044	-	-	27,044
Investment securities available-for-sale						
Government bonds	-	64,408	-	-	-	64,408
Unquoted shares	-	1	-	-	-	1
Investment securities held-to-maturity						
Banking bonds	-	-	-	-	-	-
Other financial assets						
Receivables from operations with customers	161	-	-	-	-	161
Financial derivatives arising from swap, forward and spot	-	-	-	-	-	-
Other	68	-	-	-	-	68
<b>TOTAL FINANCIAL ASSETS</b>	<b>62,186</b>	<b>64,409</b>	<b>27,044</b>	<b>-</b>	<b>14,195</b>	<b>167,834</b>
<b>NON-FINANCIAL ASSETS</b>						<b>36,916</b>
<b>TOTAL ASSETS</b>						<b>204,750</b>

As at 31 December 2016 and 2015 all of the Bank's financial liabilities were carried at amortised cost.

## 28 Presentation of Financial Instruments by Measurement Category (Continued)

The following table provides a reconciliation of classes of financial assets with these measurement categories as at 31 December 2015:

<i>In millions of Ukrainian hryvnias</i>	Loans and receiva- bles	Available-for- sale assets	Assets at FVTPL held for trading	Held to maturity	Finance lease receivables	Total
<b>ASSETS</b>						
Cash and cash equivalents and mandatory reserves	29,184	-	-	-	-	29,184
Due from banks						
Guarantee deposits with banks	3,365	-	-	-	-	3,365
Loans and advances to customers						
Corporate loans	163,070	-	-	-	-	163,070
Loans to individuals – cards	17,502	-	-	-	-	17,502
Loans to individuals – mortgage	5,299	-	-	-	-	5,299
Loans to individuals – auto	36	-	-	-	-	36
Loans to individuals – consumer	539	-	-	-	-	539
Loans to individuals – other	1,012	-	-	-	-	1,012

<b>TOTAL ASSETS</b>						<b>257,979</b>

## 29 Related Party Transactions Before the Change of the Bank's Owners

In accordance with IAS 24 "Related Party Disclosures", parties are generally considered to be related if the parties are under common control, joint control or one party has the ability to control the other party or can exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

As discussed in Note 1, the Bank is 100% owned by the Government starting from 19 December 2016. This Note 29 include transactions and balances with related parties before the change in the Bank's ownership and thus list of related parties. Refer to Note 30 for details on transactions and balances with related parties after the change.

## 29 Related Party Transactions Before the Change of the Bank's Owners (Continued)

At 19 December 2016 and 31 December 2015, the outstanding balances with related parties are as follows:

	19 December 2016				31 December 2015			
	Major shareholders	Management	Subsidiaries and associated companies	Companies under control of major shareholders	Major shareholders	Management	Subsidiaries and associated companies	Companies under control of major shareholders
<i>In millions of Ukrainian hryvnias</i>								
Cash and cash equivalents and mandatory reserves	-	-	49	-	-	-	617	-
Due from banks	-	-	-	-	-	-	-	-
Loans and advances to customers, net (contractual interest rate: 2016: UAH - 16%, USD - 10%, EUR - 10%; 2015: UAH - 16%, USD - 11%, EUR - 10%)	-	-	-	9,981	-	-	2	34,880
Loans and advances to customers written off as uncollectable	-	-	-	(125)	-	-	-	(516)
Embedded derivative assets	-	-	-	702	-	-	-	6,572
Investment securities held to maturity	-	-	-	-	-	-	216	-
Investment in subsidiaries	-	-	433	-	-	-	435	-
Due to banks and other financing institutions	-	-	2,640	-	-	-	1,661	-
Customer accounts (contractual interest rate: 2016: UAH - 5%, USD - 2%, EUR - 2%; 2015: UAH - 5%, USD - 9%, EUR - 9%)	67	39	35	1,128	1,145	232	539	3,004
Debt securities in issue and other borrowed funds	-	-	8,999	-	-	-	9,169	-
Other financial liabilities	-	-	-	-	-	-	-	3
Subordinated debt (contractual interest rate: 2015: USD - 11%)	-	-	3,974	-	-	-	3,515	1,938

## 29 Related Party Transactions Before the Change of the Bank's Owners (Continued)

The income and expense items with related parties for the period from 1 January to 19 December 2016 and for the year ended 2015 are as follows:

	For the period ended 19 December 2016				For the year ended 31 December 2015			
	Major share-holders	Management	Subsidiaries and associated companies	Companies under control of major shareholders	Major share-holders	Management	Subsidiaries and associated companies	Companies under control of major shareholders
<i>In millions of Ukrainian hryvnias</i>								
Interest income	-	-	16	4,933	-	-	30	3,433
Interest expense	(84)	(50)	(1,528)	(353)	(90)	(64)	(928)	(652)
Provision for impairment of loans and advances to customers	-	-	-	2,820	-	-	-	(433)
Fee and commission income	-	-	-	44	-	-	-	52
Losses less gains from financial derivatives	-	-	-	4,437	-	-	-	2,574
Foreign exchange translation (losses less gains)/gains less losses	-	(1)	(1,864)	1,454	-	-	(3,488)	7,285
Other operating income	-	-	-	12	-	-	-	14
Administrative and other operating expenses, excluding management remuneration	-	-	(2)	(4)	-	-	(3)	(102)

At 19 December 2016 and 31 December 2015, other rights and obligations with related parties are as follows:

	19 December 2016	31 December 2015
	Companies under control of shareholder	Companies under control of major shareholders
<i>In millions of Ukrainian hryvnias</i>		
Guarantees issued	52	49
Irrevocable commitments to extend credit	-	17
Import letters of credit	-	5
Total credit related commitments and financial guarantees	52	71

Aggregate amounts lent to and repaid by related parties during the period from 1 January to 19 December 2016 and for the year ended 2015 are as follows:

	For the period ended 19 December 2016				For the year ended 31 December 2015			
	Major share-holders	Management	Subsidiaries and associated companies	Companies under control of major shareholders	Major share-holders	Management	Subsidiaries and associated companies	Companies under control of major shareholders
<i>In millions of Ukrainian hryvnias</i>								
Amounts lent to related parties during the period	-	35	-	10,952	-	25	-	9,473
Amounts repaid by related parties during the period	-	35	-	49,437	-	25	-	12,167

For the period ended 19 December 2016, the remuneration of the members of the former Management Board comprised salaries, discretionary bonuses, pension contributions and other short-term benefits totalling UAH 18 million (for the year ended 31 December 2015: UAH 18 million), including contributions into the State pension fund of UAH 1 million (for the year ended 31 December 2015: UAH 1 million).

## 30 Related Party Transactions After the Change of the Bank's Owners

Parties are generally considered to be related if the parties are under common control, joint control or one party has the ability to control the other party or can exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. In the note disclosed only the material amount.

This Note 30 includes only transactions and balances with related parties after the change in the Bank's ownership and thus related parties. Transactions and balances with related parties after the change comprise primarily of transactions with Ukrainian government-related entities (both directly and indirectly controlled by and under significant influence of the Government) and the Shareholder.

At 31 December 2016, the outstanding balances with related parties are as follows:

<i>In millions of Ukrainian hryvnias</i>	Shareholder	Management	Subsidiaries and Entities under common associated companies	control
Cash and cash equivalents and mandatory reserves	-	-	170	6,008
Due from banks	-	-	2	-
Loans and advances to customers, net (contractual interest rate: 2016: UAH - 15%, USD - 12%)	-	-	2	365
Investment securities available-for-sale	64,409	-	-	-
Embedded derivative assets	27,044	-	-	-
Investment in subsidiaries and associates	-	-	433	-
Other financial assets	-	-	-	2
Other assets	-	-	53	-
Due to the NBU	-	-	-	18,047
Due to banks and financial institutions	-	-	14	-
Customer accounts (contractual interest rate: 2016: UAH - 3%, USD - 11%, EUR - 9%)	-	75	5	11
Other financial liabilities	-	-	485	-

This note is prepared in accordance with the requirements of International Financial Reporting Standard (IAS 24) Related Party Disclosure (IAS 24). The criteria for determination of related parties under IAS 24 differ from the criteria relating to identification of related parties under the Regulation No 315 of the National Bank of Ukraine. Accordingly, information regarding balances and transactions with related parties disclosed in the tables above is based on requirements of IAS 24.

The income and expense items with related parties present the period from 19 December 2016 to 31 December 2016:

<i>In millions of Ukrainian hryvnias</i>	For the period of 19 to 31 December 2016			
	Shareholder	Management	Subsidiaries and Companies under control of associated companies	major Shareholder
Interest income	51	-	21	3
Interest expense	-	(17)	(192)	(210)
Foreign exchange translation (losses less gains)/gains less losses	-	-	(89)	-
Administrative and other operating expenses, excluding management remuneration	-	-	(2)	(1)

## 30 Related Party Transactions After the Change of the Bank's Owners (Continued)

Aggregate amounts lent to and repaid by related parties during the period from 19 to 31 December 2016 are as follows:

<i>In millions of Ukrainian hryvnias</i>	Shareholder	Management	Subsidiaries and associated companies	Companies under control of major Shareholder
Amounts lent to related parties during the period	-	5	-	-
Amounts repaid by related parties during the period	-	5	-	-
Loans repaid to related parties during the period	-	-	-	26,746
Loans lent by related parties during the period	-	-	-	25,000

The remuneration of the members of the current Management Board that were ratified after comprised salaries, discretionary bonuses, pension contributions and other short-term benefits totalling UAH 1 million, including contributions to the State pension fund.
